## FORWARD-LOOKING STATEMENTS

## CAUTION REGARDING FORWARD-LOOKING STATEMENTS

This Management's Discussion and Analysis ("MD&A") of InterRent Real Estate Investment Trust ("InterRent REIT", the "REIT" or the "Trust") contains "forward-looking statements" within the meaning of applicable securities legislation. This document should be read in conjunction with material contained in the Trust's audited consolidated financial statements for the year ended December 31, 2023, along with InterRent REIT's other publicly filed documents. Forward-looking statements appear in this MD&A under the heading "Outlook" and generally include, but are not limited to, statements with respect to management's beliefs, plans, estimates and intentions, and similar statements concerning anticipated future events, results circumstances, performance or expectations, including but not limited to financial performance and equity or debt offerings, new markets for growth, financial position, comparable multi-residential REITs and proposed acquisitions. Generally, these forward-looking statements can be identified by the use of forward-looking terminology such as "plans", "expects" or "does not expect", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates" or "does not anticipate", or "believes", or variations of such words and phrases or statements that certain actions, events or results "may", "could", "would", "might" or "will be taken", "occur" or "be achieved".

Forward-looking statements are subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of InterRent REIT to be materially different from those expressed or implied by such forward-looking statements, including but not limited to: the risks related to the market for InterRent REIT's securities, the general risks associated with real property ownership and acquisition, that future accretive acquisition opportunities will be identified and/or completed by InterRent REIT, risk management, liquidity, debt financing, credit risk, competition, general uninsured losses, interest rate fluctuations, environmental matters, restrictions on redemptions of outstanding InterRent REIT securities, lack of availability of growth opportunities, diversification, potential unitholder liability, potential conflicts of interest, the availability of sufficient cash flow, fluctuations in cash distributions, the market price of InterRent REIT's trust units, the failure to obtain additional financing, dilution, reliance on key personnel, changes in legislation, failure to obtain or maintain mutual fund trust status and delays in obtaining governmental approvals or financing as well as those additional factors discussed in the section entitled "Risks and Uncertainties" and in other sections of this Management's Discussion and Analysis.

In addition, certain material assumptions are applied by the Trust in making forward looking statements including, without limitation, factors and assumptions regarding:

- Overall national economic activity
- Regional economic and demographic factors, such as employment rates and immigration trends
- Inflationary/deflationary factors
- Long-, medium-, and short-term interest rates
- Availability of financing
- Housing starts
- Housing affordability
- Provincial government housing policies
- Canadian Mortgage and Housing Corporation (CMHC) policies

Although the forward-looking information contained herein is based upon what management believes are reasonable assumptions, there can be no assurance that actual results will be consistent with these forward-looking statements. InterRent REIT has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking statements, however there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements. InterRent REIT does not

undertake to update any forward-looking statements that are incorporated by reference herein, except in accordance with applicable securities laws.

Certain statements included herein may be considered "financial outlook" for purposes of applicable securities laws, and such financial outlook may not be appropriate for purposes other than this MD&A.

## INTERRENT REAL ESTATE INVESTMENT TRUST

InterRent Real Estate Investment Trust ("InterRent REIT", the "REIT" or the "Trust") is an unincorporated, openended real estate investment trust created pursuant to a Declaration of Trust, dated October 10, 2006, as most recently amended on May 21, 2019, under the laws of the Province of Ontario. InterRent REIT was created to invest in income producing multi-family residential properties within Canada initially through the acquisition of InterRent International Properties Inc. (the "Corporation") and of the Silverstone Group by the way of a plan of arrangement (the "Arrangement") under the Business Corporations Act (Ontario), which was completed on December 7, 2006.

InterRent REIT's principal objectives are to provide its unitholders ("Unitholders") with stable and growing monthly cash distributions, partially on a Canadian income tax-deferred basis, and to increase the value of its trust units (the "Units") through the effective management of its residential multi-family revenue producing properties, the acquisition of additional, accretive properties, and delivering new supply through intensification and development.

## **DECLARATION OF TRUST**

The investment policies of the Trust are outlined in the Trust's Amended and Restated Declaration of Trust (the "DOT") dated as of May 21, 2019, and a copy of this document is available on SEDAR (www.sedarplus.ca).

At December 31, 2023 the Trust was in material compliance with all investment guidelines and operating policies stipulated in the DOT.

## **ACCOUNTING POLICIES**

InterRent REIT's accounting policies are described in note 3 of the audited consolidated financial statements for the year ended December 31, 2023, and December 31, 2022.

In applying these policies, in certain cases it is necessary to use estimates, which management determines using information available to the Trust at the time. Management reviews key estimates on a quarterly basis to determine their appropriateness and any change to these estimates is applied prospectively in compliance with IFRS. Significant estimates are made with respect to the fair values of investment properties and the fair values of financial instruments.

## **NON-GAAP MEASURES**

Proportionate results represent financial information adjusted to reflect the Trust's equity accounted joint ventures on a proportionately consolidated basis at the Trust's ownership percentage of the related investment. Under IFRS (GAAP), the Trust's equity accounted joint ventures are presented on one line in the consolidated balance sheets and the consolidated statement of income (loss) in aggregate. In this MD&A the consolidated balance sheets and consolidated statement of income (loss) are presented as if the joint ventures were proportionately consolidated. The presentation of financial information at the Trust's proportionate interest provide a more detailed view of performance and reflect how Management operates the business. Reconciliations of the proportionate balance sheet and proportionate statement of income (loss) to those prepared on a GAAP basis are found in the non-IFRS reconciliations and performance measures section of this MD&A.

Gross Rental Revenue, Net Operating Income, Same Property results, Repositioned Property results, Funds from Operations, Adjusted Funds from Operations, Adjusted Cash Flows from Operations and EBITDA (or, in each case, substantially similar terms) are measures sometimes used by Canadian real estate investment trusts as indicators of financial performance, however they do not have standardized meanings prescribed by IFRS (GAAP). These measures

may differ from similar computations as reported by other real estate investment trusts and, accordingly, may not be comparable to similarly termed measures reported by other such issuers.

Gross Rental Revenue is the total potential revenue from suite rentals before considering vacancy and rebates and excludes other revenue from ancillary sources.

Net Operating Income ("NOI") is a key measure of operating performance used in the real estate industry and includes all rental revenues generated at the property level, less related direct costs such as utilities, realty taxes, insurance and on-site maintenance wages and salaries. As one of the factors that may be considered relevant by readers, management believes that NOI is a useful supplemental measure that may assist prospective investors in assessing the Trust.

Same property results are revenues, expenses and NOI from properties owned by the Trust throughout the comparative periods, which removes the impact of situations that result in the comparative period to be less meaningful. Some examples include: acquisitions, dispositions, redevelopments or properties going through a lease-up period.

Repositioned property results are revenues, expenses and NOI from properties owned by the Trust prior to January 1, 2020.

Funds from Operations ("FFO") and Adjusted Funds from Operations ("AFFO") are financial measures commonly used by many Canadian real estate investment trusts which should not be considered as an alternative to net income, cash flow from operations, or any other operating or liquidity measure prescribed under GAAP. The Trust presents FFO and AFFO in accordance with the REALPAC White Paper on Funds from Operations and Adjusted Funds from Operations for IFRS dated January 2022. Management considers FFO and AFFO a useful measure of recurring economic earnings.

Adjusted Cash Flows from Operations ("ACFO") is an additional financial measure of economic cash flow based on the operating cash flows of a business adjusted for specific items. The Trust presents ACFO in accordance with the REALPAC White Paper dated February 2019. Management considers ACFO a useful measure of sustainable cash flow.

Earnings Before Interest, Taxes, Depreciation and Amortization ("EBITDA") is calculated as earnings before interest, taxes, depreciation, amortization, and other adjustments including gain/loss on sale and fair value adjustments.

Readers are cautioned that Gross Rental Revenue, NOI, Same property, Repositioned property, FFO, AFFO, ACFO and EBITDA are not alternatives to measures under GAAP and should not, on their own, be construed as indicators of the Trust's performance or cash flows, measures of liquidity or as measures of actual return on Units of the Trust. These non-GAAP measures, as presented, should only be used in conjunction with the consolidated financial statements of the Trust.

As a result of the redeemable feature of the Trust Units, the Trust's Units are defined as a financial liability and not considered an equity instrument. Therefore, no denominator exists to calculate per unit calculations. Consequently, all per unit calculations are considered non-GAAP measures. Management feels that certain per unit calculations are an important method of measuring results from period to period and as such has determined basic and diluted weighted average number of units. Per unit calculations as computed by the Trust may differ from similar computations as reported by other real estate investment trusts and, accordingly, may not be comparable to other such issuers.

## **OVERVIEW**

## **BUSINESS OVERVIEW AND STRATEGY**

InterRent REIT is a growth-oriented real estate investment trust engaged in increasing Unitholder value and creating a growing and sustainable distribution through the acquisition, development, and ownership of multi-residential properties. The REIT generates revenues, cash flows and earnings from rental operations and continually assesses its assets for accretive capital recycling purposes. InterRent REIT's largest and most consistent source of income is

its rental operations, which involves leasing individual suites to residents for lease terms generally ranging from month-to-month to twelve-months.

InterRent's strategy is to expand its portfolio primarily within markets that have exhibited stable market vacancies, sufficient suites available to attain the critical mass necessary to implement an efficient portfolio management structure and, offer opportunities for accretive acquisitions.

InterRent's primary objectives are to use the proven industry experience of the Trustees, Management and Operational Team to: (i) grow both funds from operations per Unit and net asset value per Unit through investments in a diversified portfolio of multi-residential properties; (ii) provide Unitholders with sustainable and growing cash distributions, payable monthly; and (iii) maintain a conservative payout ratio and balance sheet.

During 2023, the Trust purchased a 10% ownership in two properties comprised of 605 suites in Brampton, Ontario for \$18.6 million and purchased a 25% ownership in an office conversion project in Ottawa, Ontario for \$4.4 million. The Trust also disposed of a 54-suite property in Ottawa, Ontario for a sale price of \$11.5 million, or \$213,000 per suite.

As at December 31, 2023, the Trust has 100% ownership interest in 12,088 suites, a 50% financial interest in 1,214 suites, and a 10% financial interest in 605 suites of which: a) 12,399 are included in same property suites, or 97.2% of the portfolio; and, b) 10,145 are included in repositioned property suites, or 79.5% of the portfolio.

With the current immigration targets there will be an increased demand for housing while supply issues in the market are persisting. The Trust is working with various levels of government to try and create policies to encourage more supply and currently has over 4,000 suites under various stages of development with the potential for further intensification at various sites within its portfolio.

## **OPERATIONS UPDATE**

- Total portfolio occupancy of 97.0% for December 2023 was up 180 basis points from 95.2% in September 2023, and represents a 20 basis point increase from December 2022 occupancy of 96.8%. Occupancy remained strong in 2024 and we anticipate being within our normal range of 3-4% overall for Q1 2024.
- Lease-up at the REIT's first office conversion community, The Slayte in Ottawa, reached 89.2% by year end and further improved to 91.1% by the end of February 2024.
- Delivered strong average monthly rent ("AMR") growth of 7.9% for the total portfolio and 7.5% for the same property portfolio for December 2023, as compared to December 2022. AMR growth into 2024 has continued at a rate that is in-line with what we've seen in recent years moving from Q4 to Q1.
- The trend towards lower turnover that we have seen over the last two years appears to be continuing in early 2024. While Q1 is traditionally the quarter with the lowest turnover, early signs are showing that turnover is coming in lower than historical averages.
- The Trust continues to invest in its portfolio as a driver of future organic growth, spending \$30.6 million during the quarter on a proportionate basis, of which \$9.4 million was spent on improvements for non-repositioned properties (\$3,600 per suite), \$4.7 million for the HST self-assessment on 473 Albert, \$0.1 million on the Montreal intensification project, \$1.6 million on properties under development, and \$14.8 million on the repositioned portfolio (\$1,469 per suite). This investment in the portfolio and the programming offered at the properties allows the Trust to capture above average market rents within its various communities, which is of the utmost importance especially in an environment of declining turnover.

## **OUTLOOK**

- a) Management remains committed to growing the REIT in a strategic and structured manner, although timing is being impacted by the current economic environment, future growth is still anticipated to come from:
  - continuing to source properties in our core markets that allow us to build scale within these areas and apply our repositioning experience and expertise in a manner that continues to provide long term accretion for our Unitholders;
  - ii. continuously looking for new ways and opportunities to drive existing revenues, create new revenue streams and reduce operating costs within our portfolio;
  - iii. re-deploying capital from areas where management believes that properties have reached their economic peak or that the area will not allow the REIT to reach the desired level of scale;
  - iv. developing purpose-built rental on existing sites that have the ability to add more density; and
  - v. participating in joint ventures where the REIT can add value through its experience and expertise in owning and operating multi-family rentals.
- b) The REIT continues to evaluate intensification opportunities within the portfolio and has completed a project in Montréal, where C-class office space in one of the REIT's existing buildings was converted into 36 new residential units. Occupancy commenced during Q2 2023, and as of February 2024, 34 of the 36 new units have been leased.
- c) In addition to the intensification projects, the REIT is continuing to make progress on its four active developments, see "Properties Under Development" for further details on ongoing development projects.
- d) Disposition Update:
  - During the year, the Trust completed the sale of a 54-suite property in Ottawa, Ontario for a sale price of \$11.5 million, or \$213,000 per suite, against a carrying value of \$10.8 million.
  - Subsequent to the end of the year, the trust sold five properties, totaling 224 suites, in Côte-Saint-Luc, Quebec for a sale price of \$46.0 million, or approximately \$205,000 per suite.
  - Proceeds from the sale of properties are used to fund the REIT's capital requirements, pay down debt, and to repurchase units under the NCIB.

## e) Liquidity Update:

- With a debt-to-GBV ratio of 38.1%, the REIT has significant liquidity available through both CMHC insured and conventional mortgage financing to fund future capital programs, development opportunities and acquisitions.
- The Trust's current credit facilities total \$223.0 million of available credit. There was approximately \$40.8 million drawn on these facilities as at December 31, 2023.
- Subsequent to the quarter, the REIT successfully financed 2024 maturing mortgages totaling \$183.5 million (maturing loans totaled \$144.9 million) at a weighted average rate of 4.25% (maturing weighted average rate of 6.06%).
- With proceeds from the financings and dispositions, the REIT further reduced its variable rate exposure, including credit facilities, to below 1%.
- As of the date of this report, the Trust had approximately \$141.9 million in unencumbered properties that do not have mortgages nor provide security for any credit facilities.

## **Q4 PERFORMANCE HIGHLIGHTS**

The following table presents a summary of InterRent's proportionate operating performance for the three months ended December 31, 2023 compared to the same period in 2022:

| Selected Consolidated Information In \$000's, except per Unit amounts and other non-financial data | 3 Months<br>Ended<br>ecember 31,<br>2023 | De | 3 Months<br>Ended<br>ecember 31,<br>2022 | Change   | 2 Months<br>Ended<br>cember 31,<br>2023 | 2 Months<br>Ended<br>cember 31,<br>2022 | Change   |

<sup>(1)</sup> Represents 12,088 (2022 - 12,003) suites fully owned by the REIT, 1,214 (2022 - 1,214) suites owned 50% by the REIT, and 605 (2022 - nil) suites owned 10% by the REIT.

#### • Overall Portfolio:

- a) Proportionate operating revenues for the quarter increased by \$5.0 million to \$61.9 million, an increase of 8.8% over Q4 2022. Operating revenues for the year increased by \$21.7 million, to \$238.2 million, an increase of 10.0% over 2022.
- b) Average monthly rent per suite increased to \$1,596 (December 2023) from \$1,479 (December 2022), an increase of 7.9%, and from \$1,576 (September 2023) an increase of 1.3%.
- c) Occupancy for December 2023 was 97.0%, an increase of 180 basis points compared to September 2023 and an increase of 20 basis points when compared to December 2022.
- d) Proportionate NOI for the quarter was \$40.6 million, an increase of \$4.0 million, or 11.1%, over Q4 2022. NOI margin for the quarter was 65.6%, an increase of 130 basis points from Q4 2022. Proportionate NOI for the year was \$156.3 million, an increase of \$17.8 million, or 12.9%, over 2022. NOI margin for the year was 65.6%, an increase of 160 basis points over 2022.

#### • Same Property Portfolio:

a) Proportionate operating revenues for the quarter increased by \$4.6 million to \$60.6 million, an increase of 8.2% from Q4 2022. Proportionate operating revenues for the year increased by \$19.2 million to \$233.8 million, an increase of 9.0% from 2022.

- b) Average monthly rent per suite for the same property portfolio increased to \$1,585 (December 2023) from \$1,474 (December 2022), an increase of 7.5%, and from \$1,566 (September 2023) an increase of 1.2%.
- c) Occupancy for December 2023 was 97.0%, an increase of 180 basis points compared to September 2023 and an increase of 20 basis points when compared to December 2022.
- d) Same property proportionate NOI for the quarter was \$39.7 million, an increase of \$3.8 million, or 10.5% over Q4 2022. Same property NOI margin for the quarter was 65.6%, an increase of 140 basis points from Q4 2022. Same property proportionate NOI for the year was \$153.4 million, an increase of \$16.2 million, or 11.8% over 2022. Same property NOI margin for the year was 65.6%, an increase of 170 basis points over 2022.
- Repositioned properties had an average monthly rent per suite of \$1,568 and occupancy of 97.3% for December 2023. Repositioned properties had proportionate NOI for the quarter of \$32.6 million and NOI margin of 66.0%. On a full year basis, repositioned properties had proportionate NOI of \$125.3 million and NOI margin of 65.9%.
- Net income for the year was \$92.2 million, a decrease of \$11.7 million compared to 2022. This decrease was due
  primarily to unrealized gains and losses on unit-based liabilities, where increases in the Trust's unit price creates
  unrealized losses, offset by fair value adjustments on investment properties and higher NOI.
- FFO for the quarter was \$20.8 million, an increase of \$2.1 million, or 11.2%, over Q4 2022 and on a per unit basis increased by 10.1% over Q4 2022. FFO for the year was \$80.6 million, an increase of \$3.7 million, or 4.8%, over 2022 and on a per unit basis increased by 3.6% year-over-year.
- AFFO for the quarter was \$18.1 million, an increase of \$2.1 million, or 13.1%, over Q4 2022 and on a per unit basis increased by 11.8% over Q4 2022. AFFO for the year was \$70.4 million, an increase of \$3.0 million, or 4.5%, over 2022 and on a per unit basis increased by 3.4% year-over-year.
- ACFO increased by \$5.7 million, or 23.1%, to \$30.6 million compared to Q4 2022. ACFO for the year decreased by \$1.6 million, or 2.0% to \$76.9 million compared to 2022.
- Debt-to-GBV at quarter end was 38.1%, a decrease of 20 basis points and a decrease of 50 basis points compared to December 2022 and September 2023, respectively.

## **PORTFOLIO SUMMARY**

The Trust started the year with 12,610 suites. During the year ended December 31, 2023, the Trust:

- acquired a 10% interest in 605 suites in the Greater Toronto & Hamilton Area;
- added 35 suites to existing properties: two in the Greater Toronto & Hamilton Area, one in the Other Ontario region, and 32 in the Greater Montréal Area (31 suites at the Montréal intensification project and one additional suite at another property);
- brought 104 suites online at The Slayte development in the National Capital Region; and
- disposed of a 54-suite property in the National Capital Region.

At December 31, 2023, the Trust owned 12,756 suites. Management continuously reviews the markets that the REIT operates in to maintain a suitable portfolio mix. Management believes there are significant organic growth opportunities within the portfolio through continued robust rent growth, further operational streamlining, and reductions in operating costs. At December 31, 2023, 97.2% of the portfolio was included in same property suites and 79.5% of the portfolio was included in repositioned property suites. The REIT continues to evaluate opportunities within our target markets, as well as other gateway cities in Canada. Given current market conditions, the REIT will remain judicious with its investment strategy in order to continue to grow in a fiscally prudent manner. The following chart shows suite mix by region. InterRent's focus on recycling capital and growing its core markets of the Greater Toronto & Hamilton Area ("GTHA"), National Capital Region ("NCR"), Greater Montréal Area ("GMA"), and Greater Vancouver Area ("GVA") has resulted in approximately 84% of its suites being located in these core markets.

## **ACQUISITIONS**

During the year, the Trust completed an \$18.6 million acquisition for a 10% ownership stake in a 605-suite community at 2 & 4 Hanover Road in Brampton, Ontario. The acquisition is a joint venture with two partners, with the REIT's initial equity interest being 10% and retaining optionality to increase its ownership to one-third within the first two years after closing. The REIT also acts as property manager on behalf of the joint venture and collects industry standard fees. In the REIT's financial statements, the acquisition is accounted for using the equity method, appearing on one line in the consolidated balance sheet and consolidated statement of income (loss) together with the REIT's other equity accounted joint ventures. In this MD&A, results are presented as if this joint venture had been proportionately consolidated.

The Trust also completed the purchase of a 25% stake in a second office conversion project in Ottawa, Ontario for \$4.4 million.

## **DISPOSITIONS**

During the year, the Trust completed the sale of a 54-suite property in Ottawa, Ontario for a sale price of \$11.5 million, or \$213,000 per suite, against a carrying value of \$10.8 million. Proceeds from the sale were used to fund the REIT's capital requirements, pay down debt, and for unit repurchases under the NCIB.

The Trust also sold five properties in Côte-Saint-Luc, Quebec totaling 224 suites for a sale price of \$46.0 million, or approximately \$205,000 per suite, which closed in February of 2024. The properties are included in assets held for sale in the REIT's December 31, 2023 consolidated balance sheets.

## PROPERTIES UNDER DEVELOPMENT

Development activity is another important way through which the REIT generates long-term value through FFO and NAV accretion. The REIT's development pipeline will add much needed housing to Canada's rental market. InterRent's development strategy is to expand its portfolio in supply-constrained markets where acquiring a significant scale of stabilized, new-build rental product would be challenging. Development opportunities are regularly reviewed by Management, and are selectively undertaken based on a rigorous analysis of projected returns relative to the REIT's cost of capital, market dynamics, and broader capital allocation decision making.

The REIT currently has four ongoing development projects that, when complete, could provide over 4,000 additional suites and over 650,000 square feet of commercial and retail space.

| Project              | City       | Suite Count                            | Commercial Sq. Ft.                         | Ownership<br>Interest | Target<br>Completion<br>Date |
|----------------------|------------|--|--|-----------------------|------------------------------|

| Burlington GO Lands  | Burlington | 1,526 (Phases 1-2)<br>989 (Phases 3-4) | 20,081 (Phases 1-2)<br>19,779 (Phases 3-4) | 25.0%                 | 2032<br>(Phases 1-2)         |
| 900 Albert Street    | Ottawa     | 1,241                                  | 597,368                                    | 50.0%                 | TBD                          |

Transfers into the operating portfolio occur when the property is operating in the manner intended by Management. Generally this occurs upon completion of construction, as well as the receipt of all necessary permits.

#### **360 LAURIER**

360 Laurier Ave W is an office conversion project located in downtown Ottawa, with 139 residential suites and 1,736 sq ft of retail space across 11 storeys. The site plan control process with minor variances was approved by the City of Ottawa in October 2023. The project draft site plan was approved in December 2023, and the Trust is anticipating the full site plan agreement from the City's legal department in early Q2 2024. Investigative demolition is complete, and full demolition commenced in February. The building permit was submitted December 2023 with comments received in January 2024. The design team continues to work through the construction drawings for tendering.

#### **RICHMOND & CHURCHILL**

The zoning bylaw amendment for the property has been successfully approved by the City of Ottawa to allow for a 9-storey mixed-use building, as well as an additional rooftop amenity level. The rezoning allows the REIT to develop 177 residential suites and 11,591 sq ft of commercial space on the site. The site plan application was formally approved February 2022 and the draft Site Plan agreement was received June 2022. The REIT is working through construction drawings to gain a high degree of cost certainty through active tendering based on completed drawings, as well as positioning the REIT with the ability to obtain building permits. The REIT is also exploring incorporating a geothermal heating and cooling technology to minimize long-term operating costs, reduce greenhouse gas emissions, and qualify for potential government incentives and attractive financing.

#### **BURLINGTON GO LANDS**

A settlement was reached with the City of Burlington regarding the Phase 1 site plan application, subject to conditions, and was ultimately approved at the Ontario Land Tribunal. The REIT is finalizing working drawings for the building permit. Fulfillment of the site plan conditions and building permit submission is anticipated in Q1 2024. The full site plan contemplates 2,515 residential suites with 39,860 sq ft of commercial space. Phase 1 will include 775 units across two point towers on a 4 storey podium along with 9,304 sq ft of retail space.

## **900 ALBERT STREET**

The site plan application was approved by Ottawa City Council in July 2020 and the final site plan agreement is currently ongoing. The approved site plan application allows for 1,241 residential suites and 511,608 sq ft of commercial space. The REIT continues to work with its partner and external consultants to develop detailed design plans in order to deliver an offering that reflects not only the current needs of the market but also incorporates concepts and technologies to ensure its continued relevance as rental housing needs continue to evolve. Management continues to monitor, and is encouraged by, the redevelopment progress in the broader LeBreton Flats area. A study of the contemplated residential, office, and retail mix is underway to optimize the layout of the site relative to current market conditions to maximize potential value. A pedestrian bridge to the LRT station has been erected by the City and is anticipated to be completed by Q3 2024.

## **ANALYSIS OF PROPORTIONATE OPERATING RESULTS**

The following operating results are presented on a proportionate basis, inclusive of the Trust's proportionate share of equity accounted joint ventures, for the periods indicated. For a reconciliation to the Trust's operating results as reported under GAAP, see the "Non-IFRS Reconciliations and Performance Measures" section of this MD&A.

#### **REVENUE**

Management expects to continue to grow rent organically, as well as continuing to drive other ancillary revenue streams such as parking, commercial, laundry, cable and telecom revenue share agreements, and locker rentals.

Gross rental revenue for the year ended December 31, 2023 increased 9.0% to \$236.1 million compared to \$216.6 million for the year ended December 31, 2022. Operating revenue for the year was up \$21.7 million to \$238.2 million, or 10.0% compared to 2022. The Trust owned, on a weighted average basis, 12,697 suites for the year ended December 31, 2023 as compared to 12,516 for the year ended December 31, 2022, an increase of 181 suites over the period. On a per weighted average suite basis, operating revenue for 2023 was an average of \$1,563 per month (\$1,441 in 2022) an 8.5% year over year increase.

Average monthly rent for December 2023 of \$1,596 per suite has increased compared to \$1,479 for December 2022, (7.9% increase), and \$1,576 for September 2023 (1.3% increase). On a same property basis, the average rent increased by \$111 per suite (or up 7.5%) over December 2022 and by \$19 per suite (or up 1.2%) over September 2023.

| Total                           | \$1,596          | \$1,479          | +7.9%  | \$1,585          | \$1,474          | +7.5%  |  |  |  |

<sup>(1)</sup> Excludes extended stay suites.

The REIT estimates the average market rental gap on the total portfolio to be in excess of 30%. The REIT continues to carefully monitor the demand in the market and will adjust rents based on balancing short-term occupancy against long term rental revenue growth.

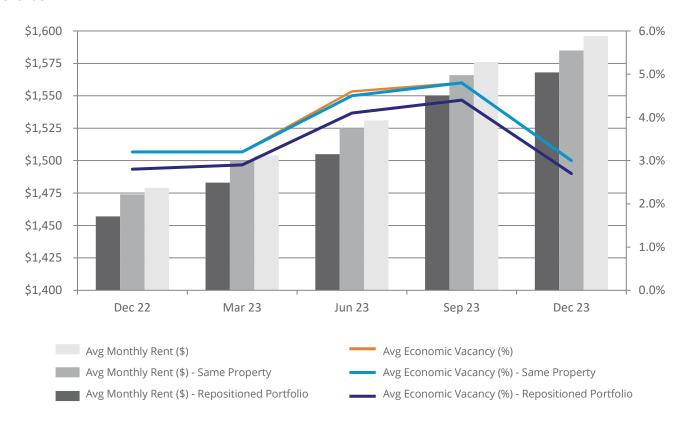

#### **PORTFOLIO OCCUPANCY**

As part of the ongoing effort to balance organic revenue growth and occupancy levels, the vacancy rate on an annual basis is expected to be in the 3%-4% range once a property is repositioned. Going forward, management believes that minor variations in economic vacancy will continue to occur from one quarter to another given the seasonal nature of rental activity. The rental growth objectives are being achieved as a direct result of:

- 1. ensuring that properties are safe, secure and well maintained;
- 2. ensuring suites are properly repaired and maintained before being rented to new residents;
- 3. tailoring marketing to the specific features, location and demographics of each individual property; and,
- 4. ensuring that operations are running as efficiently and cost effectively as possible to ensure the well-being of residents and resident enjoyment of their homes.

This is part of the Trust's repositioning strategy to maximize rental revenues, lower operating costs and create safe, quality communities for its residents, extending the useful life of its buildings, and thereby creating value for all stakeholders. Management intends to continue to pursue this strategy both within the existing portfolio and as it looks to add new properties within targeted regions.

The following chart represents both the average monthly rents and the economic occupancy for the entire portfolio for the months listed. Economic occupancy is calculated by taking financial vacancy loss and dividing it by gross rental revenue.

|   | December<br>2022 | March 2023 | June 2023 | September<br>2023 | December<br>2023 |
|---|------------------|------------|-----------|-------------------|------------------|
| Average monthly rents repositioned property | \$1,457          | \$1,483    | \$1,505   | \$1,550           | \$1,568          |
| Average monthly rents same property         | \$1,474          | \$1,500    | \$1,525   | \$1,566           | \$1,585          |
| Average monthly rents all properties        | \$1,479          | \$1,504    | \$1,531   | \$1,576           | \$1,596          |

The overall economic vacancy for December 2023 across the entire portfolio was 3.0%, a decrease of 180 basis points as compared to the 4.8% vacancy in September 2023, and a decrease of 20 basis points from 3.2% in December 2022.

The economic vacancy for December 2023 on a same property portfolio basis was 3.0%, a decrease of 180 basis points as compared to the 4.8% vacancy in September 2023, and a decrease of 20 basis points from 3.2% in December 2022. The Greater Vancouver Area is experiencing higher vacancy as it undergoes the repositioning process, and management expects this to normalize in subsequent quarters.

Amortization of rebates for 2023 was down \$2.0 million or 48% from 2022. Use of rebates peaked during the pandemic, and due to the IFRS recognition of rebates, the impact continued into 2022 as those rebates were amortized.

#### OTHER REVENUE

Other rental revenue for the year ended December 31, 2023 was up \$0.2 million to \$13.6 million compared to 2022. Increased revenues from commercial space as well as ancillary sources such as parking, laundry, locker rentals, and cable and telecom continues to be a focus as a source of organic revenue growth.

#### PROPERTY OPERATING COSTS

Property operating costs for the investment properties include repairs and maintenance, insurance, caretaking, superintendents' wages and benefits, property management salaries and benefits, uncollectible accounts and eviction costs, marketing, advertising, and leasing costs.

Property operating costs for the year ended December 31, 2023 amounted to \$38.2 million or 16.1% of revenue compared to \$36.0 million or 16.6% of revenue for the year ended December 31, 2022. As a percentage of revenue, operating costs decreased by 50 basis points as compared to 2022.

## **PROPERTY TAXES**

Property taxes for the year ended December 31, 2023 amounted to \$25.6 million or 10.7% of revenue compared to \$23.9 million or 11.0% of revenue for 2022. Overall property taxes have increased by \$1.7 million however they have decreased as a percentage of operating revenues. The increase is from the slightly higher suite count (\$0.2 million) and annual rate increases (\$1.5 million) compared to 2022.

The Trust is constantly reviewing property tax assessments for its properties and this active approach shall continue to help drive down costs. Where appropriate, the Trust will appeal individual property assessments.

#### **UTILITY COSTS**

Utility costs for the year ended December 31, 2023 amounted to \$18.1 million or 7.6% of revenue, compared to \$18.2 million or 8.4% of revenue in 2022, a decrease of \$0.1 million or 80 basis points as a percentage of operating revenue. On a per suite basis, utility costs have decreased 1.7% compared to 2022, to \$1,427 per suite. A 10% decrease in natural gas usage was the biggest driver, driven by a combination of fewer heating degree days than in the prior year as well as the Trust's investment in energy-efficient boilers and Building Automation Systems. On average, natural gas rates were up 3% year-over-year across the portfolio due primarily to the increase in the federal carbon charge. Electricity costs on a per suite basis are consistent with last year with a 5% increase in average rates offset by a 7% decrease in usage.

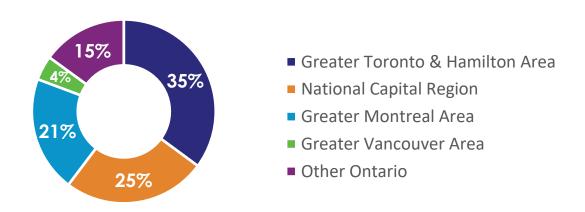

The Trust continues to manage its electricity costs through its hydro sub-metering initiative, which reduced electricity costs by 27.1%, or \$2.1 million for the year (2022 - \$2.0 million). At December 31, 2023, the REIT has approximately 83% of its portfolio that has the capability to sub-meter hydro in order to recover the cost. Of these, approximately 85% were on hydro extra leases whereby the resident either pays the local utility provider directly or the REIT recovers the cost from the resident. This represents approximately 71% of the total portfolio. Having residents responsible for utility costs encourages more conscientious behaviour and lowers consumption.

## PROPORTIONATE NET OPERATING INCOME (NOI)

Proportionate NOI for the year ended December 31, 2023 amounted to \$156.3 million or 65.6% of operating revenues compared to \$138.5 million or 64.0% of operating revenue for the year ended December 31, 2022. The \$17.8 million, or 12.9%, increase was driven primarily by top line rent growth, as well as a reduction in vacancy and rebates.

Proportionate NOI for the year ended December 31, 2023 from the same property portfolio was \$153.4 million, or 65.6% of operating revenue. Management continues to focus on top line revenue growth through selective acquisitions, suite additions, organic revenue growth and ancillary revenue as well as operating cost reductions (such as efficiencies of scale, investment in energy saving initiatives, and investments in infrastructure and technology).

## NOI BY REGION – 3 MONTHS ENDED DECEMBER 31, 2023

## SAME PROPERTY PROPORTIONATE PORTFOLIO PERFORMANCE

Same property results for the year ended December 31, 2023 are defined as all properties owned and operated by the Trust throughout the comparative periods being reported, and therefore do not take into account the impact on performance of acquisitions, dispositions or properties going through a lease-up during the period from January 1, 2022 to December 31, 2023. As at December 31, 2023, the Trust has 12,399 suites in the same property portfolio. The same property portfolio represents 97.2% of the overall portfolio.

The following same property operating results are presented on a proportionate basis, inclusive of the Trust's proportionate share of equity accounted joint ventures, for the periods ended:

| In \$ 000's              | 3 Months Ended<br>December 31,<br>2023 |         | 3 Months Ended<br>December 31,<br>2022 |              | 12 Months<br>Ended<br>December 31,<br>2023 |      |          | 12 Months<br>Ended<br>December 31,<br>2022 |    |          |       |

| Utilities                |  | 4,775   | 7.9%                                   | 5,080        | 9.1%                                       |      | 17,812   | 7.6%                                       |    | 18,055   | 8.4%  |
| Operating expenses       | \$                                     | 20,860  | 34.4%                                  | \$<br>20,075 | 35.8%                                      | \$   | 80,410   | 34.4%                                      | \$ | 77,393   | 36.1% |
| Net operating income     | \$                                     | 39,748  |  | \$<br>35,962 |  | \$ 1 | 153,399  |  | \$ | 137,183  |       |
| Net operating margin     |  | 65.6%   |  | 64.2%        |  |      | 65.6%    |  |    | 63.9%    |       |

For the year ended December 31, 2023, operating revenues for the same property portfolio increased by 9.0% compared to 2022. Property operating costs are down 70 basis points as a percentage of operating revenues, property taxes are down 20 basis points, and utilities are down 80 basis points. This resulted in an overall decrease in operating expenses, as a percentage of operating revenues, of 170 basis points as compared to the same period last year.

The net impact of a 9.0% increase in operating revenue and a 3.9% increase in operating expenses was an increase in same property proportionate NOI of \$16.2 million, or 11.8%, as compared to the same period last year. NOI margin for 2023 was 65.6% as compared to 63.9% for 2022, a 170 basis point increase.

The average monthly rent for December 2023 for same property increased to \$1,585 per suite from \$1,474 (December 2022), an increase of 7.5%. Economic vacancy for December 2023 for same property was 3.0%, compared to 3.2% for December 2022.

|                                       | December<br>2022 | March 2023 | June 2023 | September<br>2023 | December<br>2023 |

#### REPOSITIONED PROPERTY PROPORTIONATE PORTFOLIO PERFORMANCE

The Trust's repositioning program following the acquisition of a property typically spans 3 to 4 years, depending on how significant the capital requirements are and on the resident turnover at the property. Repositioned property suites for the three months ended December 31, 2023 are defined as all properties owned and operated by the Trust prior to January 1, 2020. As at December 31, 2023, the Trust has 10,145 repositioned property suites, which represents 79.5% of the overall portfolio.

The following repositioned property operating results are presented on a proportionate basis, inclusive of the Trust's proportionate share of equity accounted joint ventures, for the periods indicated. For a table detailing the Trust's repositioned property operating results on a GAAP basis, see the "Non-IFRS Reconciliations and Performance Measures" section of this MD&A.

Financing costs increased during both the three months and the year ended December 31, 2023, compared to the corresponding periods in 2022. This increase was primarily driven by refinancing activities and successful upfinancing initiatives carried out throughout 2022 and 2023, which led to a higher level of outstanding mortgage debt with a higher weighted average interest rate. Additionally, the REIT experienced higher levels of debt on its credit facilities compared the corresponding periods, with interest rates higher than those of the equivalent prior period as variable rates rose through 2022 and 2023.

The REIT capitalized more interest in 2023 than in the prior year, resulting from an increased value in properties under development throughout much of 2023 as well as increased rates compared to the prior period. The REIT capitalizes the amount of interest that could have been avoided during the development period if expenditures for the assets had not been made. In assessing avoidable interest, the REIT first applies interest from any liabilities secured by the properties under development whose funds are used specifically for that property. To the extent that expenditures exceed those liabilities, the REIT then uses the prevailing rate on its drawn credit facilities. To the extent the expenditures exceed the drawn amounts on its credit facilities, the REIT then uses the prevailing CMHC insured mortgage rate to calculate the remaining interest.

Mortgage interest is one of the single largest expense line items for the REIT. Throughout 2023, there was considerable rate volatility as the Bank of Canada combatted persistent inflation, while periods of uncertainty affected the debt markets. Over the course of the year, CMHC insured mortgage rates fluctuated significantly, ranging from 3.50% to 5.25% for 5-year terms and from 3.60% to 5.30% for 10-year terms.

The REIT has remained proactive in managing its mortgage ladder during Q4, closely monitoring the debt markets and utilizing early rate locks or hedges when deemed advantageous to mitigate interest rate risk.

## **ADMINISTRATIVE COSTS**

Administrative costs include such items as: director pay; salaries and incentive payments; employee benefits; investor relations; sustainability initiatives; transfer agent listing and filing fees; legal, tax, audit, other professional fees; and amortization on corporate assets.

Administrative costs for the year ended December 31, 2023 amounted to \$16.6 million, or 7.0% of operating revenue, compared to \$14.7 million for the same period in 2022, being 6.8% of operating revenue. Approximately 5% of the 2023 figure relates to ESG actions (in line with 2022), including the impact of InterRent's initiative to support refugees from Ukraine and Afghanistan, foundational work for the REIT's climate commitments, and various biodiversity initiatives across the portfolio.

During the year ended December 31, 2023, the Trust incurred \$0.8 million of property management costs (2022 - \$0.5 million). These costs represent salaries, employee benefits, travel, and other expenses incurred in order to earn fees for the property and project management services for 1,819 residential suites within its joint operations and joint ventures. Property management fees are presented in other income and fees.

In December of 2023 the Trust revealed a refresh of its brand identity to better reflect the evolving needs of its customers. The change includes a new logo, visual identity, and a redesigned website. To support this initiative, the Trust incurred \$0.2 million (2022 - nil) of incremental administrative costs during the year.

## PROPORTIONATE OTHER INCOME AND EXPENSES

The following table of other income and expenses is presented on a proportionate basis, inclusive of the Trust's proportionate share of equity accounted joint ventures, for the periods indicated. For a reconciliation to the Trust's other income and expenses as reported under GAAP, see the "Non-IFRS Reconciliations and Performance Measures" section of this MD&A.

## **OTHER INCOME AND FEES**

The Trust has contractual arrangements and receives compensation to perform the property and project management services for 1,819 residential suites within its joint operations and joint ventures.

#### **SALE OF ASSETS**

During the year ended December 31, 2023, the Trust sold one investment property for a total transaction price of \$11.5 million compared to a carrying value of \$10.8 million. The property was sold for \$0.7 million above its fair market value however selling costs of \$0.7 million (which includes commission, legal expense and any unamortized portion of the CMHC insurance premium) were incurred as part of the transactions, resulting in a small loss on disposition.

## **FAIR VALUE ADJUSTMENTS OF INVESTMENT PROPERTIES**

The fair value of the portfolio at December 31, 2023 and 2022 was determined internally by the Trust. In order to substantiate management's valuation, the Trust engaged a leading independent national real estate appraisal firm to provide appraisals for substantially all of the portfolio at December 31, 2023 and 2022. For the year ended December 31, 2023, a proportionate fair value gain of \$15.4 million was recorded as a result of changes in the fair value of investment properties. The weighted average capitalization rate used across the portfolio at the end of 2023 was 4.22%, unchanged from Q3 2023 and up 18 basis points from the 4.04% for Q4 2022.

## UNREALIZED FAIR VALUE GAIN/LOSS ON FINANCIAL LIABILITIES

The Trust used a price of \$13.23 (December 31, 2022 - \$12.80) based on the closing price of the TSX listed InterRent REIT Trust Units to determine the fair value of the deferred unit compensation liability.

The total fair value of the deferred units recorded on the consolidated balance sheet at December 31, 2023 was \$56.6 million and a corresponding fair value loss of \$1.7 million was recorded on the consolidated statement of income for the year ended December 31, 2023.

The total fair value of the performance and restricted units recorded on the consolidated balance sheet at December 31, 2023 was \$2.6 million with \$0.2 million fair value gain recorded on the consolidated statement of income for the year ended December 31, 2023.

The Trust determined the fair value of the option plan (unit-based compensation liability) at December 31, 2023 was \$0.1 million with a minimal fair value loss recorded on the consolidated statement of income for the year ended December 31, 2023.

The total fair value of the Class B LP Unit Liability recorded on the consolidated balance sheet at December 31, 2023 was \$28.6 million with a minimal fair value loss recorded on the consolidated statement of income for the year ended December 31, 2023.

The Trust uses rate swaps and forward rate locks in order to reduce its exposure to movements in interest rates. During the year, the Trust entered into eight forward rate locks to effectively lock-in interest rates on upcoming planned financings. As a result of the market interest rates at year end and settlements during the year, the REIT recognized an unrealized loss of \$0.8 million on interest rate swaps and an unrealized loss of \$0.4 million on forward rate locks.

#### **DISTRIBUTION EXPENSE**

The distribution expense is comprised of distributions to holders of the Class B LP units and distributions earned on the deferred, performance, and restricted unit plans, as all are classified as a liability.

## **INVESTMENT PROPERTIES**

The following chart shows the changes in investment properties from December 31, 2022 to December 31, 2023:

|  | December 31, 2023 |            |                     |           |  |  |  |  |  |

| Reclassification to assets held for sale |                   | (45,368)   |                     | (45,368)  |  |  |  |  |  |
| Property capital investments             |                   | 106,124    |                     | 109,018   |  |  |  |  |  |
| Fair value gains                         |                   | 11,954     |                     | 15,420    |  |  |  |  |  |
| Total investment properties              | \$                | 4,315,742  | \$                  | 4,389,547 |  |  |  |  |  |

The Trust's repositioning program following the acquisition of a property typically spans 3 to 4 years, depending on how significant the capital requirements are and on the resident turnover at the property. For the purpose of identifying capital expenditures related to properties being repositioned, for 2023 the REIT uses a cut-off of December 31, 2019. Any property purchased after this date is considered a repositioning property and capital expenditures are all part of the program to improve the property by lowering operating costs and/or enhancing

revenue. For properties acquired prior to January 1, 2020, management reviews the capital expenditures to identify and allocate, to the best of its abilities, those that relate to enhancing the value of the property (either through lowering operating costs or increasing revenue) and those expenditures that relate to sustaining and maintaining the existing space. There are 10,145 suites in the REIT's portfolio that were acquired prior to January 1, 2020 and are considered repositioned properties for the purpose of calculating maintenance capital investment.

The Trust continues to invest in its portfolio as a driver of future organic growth, spending \$109.0 million on a proportionate basis during the year of which \$32.8 million was spent on improvements for non-repositioned properties (\$12,562 per suite), \$4.7 million for the HST self-assessment on 473 Albert, \$3.1 million on the Montreal intensification project, \$11.3 million on properties under development, and \$57.1 million on the repositioned portfolio (\$5,628 per suite). This significant level of capital expenditures allows the Trust to rejuvenate multi-family supply, thereby extending the life of the properties, and creates safe living spaces that our residents can be proud to call home.

# **UNITHOLDERS' EQUITY**

The following chart shows the changes in reported Unitholders' equity from December 31, 2022 to December 31, 2023.

| Summary of Unitholders' Capital Contributions     | Trust Units | Amount (in \$ 000's) |
|---|-------------|----------------------|
| December 31, 2022                                 | 141,888,874 | \$1,052,858          |
| Units purchased and cancelled                     | (157,200)   | (1,998)              |
| Units issued from exchange of Class B units       | 1,250,000   | 15,115               |
| Units issued under the deferred unit plan         | 34,480      | 449                  |
| Units issued under distribution reinvestment plan | 1,646,072   | 20,683               |
| Units issued from options exercised               | 120,925     | 1,572                |
| December 31, 2023                                 | 144,783,151 | \$1,088,679          |

As at December 31, 2023 there were 144,783,151 Trust Units issued and outstanding. During the year ended December 31, 2023 the Trust purchased 157,200 units for \$2.0 million. Average price per Unit was \$12.71 and all units purchased were cancelled. A company controlled by an officer and Trustee of the Trust exchanged 1,250,000 Class B LP Units for 1,250,000 Trust Units. All Class B LP Units are exchangeable at the option of the holder and the exchange occurred at market prices.

#### **DISTRIBUTIONS**

The distributions per Unit were \$0.3630 and \$0.3450 for the years ended December 31, 2023 and 2022, respectively. The Trust is currently making monthly distributions of \$0.0315 per Unit, which equates to \$0.378 per Unit on an annualized basis. For the year ended December 31, 2023, the Trust's FFO and AFFO were \$0.551 and \$0.482 per unit (diluted) respectively, compared to \$0.532 and \$0.466 for the year ended December 31, 2022.

Distributions to Unitholders are as follows:

| In \$ 000's  | Nonths Ended<br>mber 31, 2023 | Months Ended<br>mber 31, 2022 |
|--|-------------------------------|-------------------------------|
| Distributions declared to Unitholders              | \$<br>52,056                  | \$<br>48,664                  |
| Distributions reinvested through DRIP              | (20,683)                      | (18,208)                      |
| Distributions declared to Unitholders, net of DRIP | \$<br>31,373                  | \$<br>30,456                  |
| DRIP participation rate                            | 39.7%                         | 37.4%                         |

InterRent's Declaration of Trust provides the Trustees with the discretion to determine the payout of distributions that would be in the best interest of the Trust. In establishing the level of distributions to Unitholders, consideration is given to future cash requirements of the Trust as well as forward-looking cash flow information.

#### WEIGHTED AVERAGE NUMBER OF UNITS

The following table sets forth the weighted average number of Units outstanding:

|  | 3 Months<br>Ended<br>December 31,<br>2023 | 3 Months<br>Ended<br>December 31,<br>2022 | 12 Months<br>Ended<br>December 31,<br>2023 | 12 Months<br>Ended<br>December 31,<br>2022 |

## NON-IFRS RECONCILIATIONS AND PERFORMANCE MEASURES

Management believes that Funds from Operations (FFO) and Adjusted Funds from Operations (AFFO) are key measures for real estate investment trusts, however they do not have standardized meanings prescribed by IFRS (GAAP). These measures may differ from similar computations as reported by other real estate investment trusts and, accordingly, may not be comparable to similarly termed measures reported by other such issuers.

As both measures exclude the fair value adjustments on investment properties and gains and losses from property dispositions, it provides an operating performance measure that, when compared period over period, reflects the impact on operations of trends in occupancy levels, rental rates, operating costs and realty taxes, acquisition activities and interest costs, and provides a perspective of the financial performance that is not immediately apparent from net income determined in accordance with GAAP. As these measures are based on historical performance, they lag current operation and are negatively impacted, most notably on a per unit basis, during periods of significant growth. This is further amplified when the growth stems primarily from repositioning/development properties.

Adjusted Cash Flow from Operations (ACFO) was introduced in February 2017, and updated February 2019, in REALPAC's "White Paper on Adjusted Cashflow from Operations (ACFO) for IFRS" as a sustainable, economic cash flow metric. Management believes ACFO can be a useful measure to evaluate the Trust's ability to fund distributions to Unitholders. ACFO should not be construed as an alternative to cash flows provided by or used in operating activities determined in accordance with IFRS. ACFO is calculated in accordance with the REALPAC definition but may differ from other REIT's methods and accordingly, may not be comparable to ACFO reported by other issuers.

<sup>(1)</sup> Includes distributions on LP Class B units

For the year ended December 31, 2023, ACFO exceeded distributions declared by \$23.8 million. Amounts retained in excess of the declared distributions are used to fund acquisitions and capital expenditure requirements.

## CASH FROM OPERATING ACTIVITIES AND CASH DISTRIBUTIONS

The following table outlines the differences between cash flows from operating activities and net income and cash distributions in accordance with National Policy 41-201, "Income Trusts and Other Indirect Offerings":

| In \$ 000's   | 3 Months<br>Ended<br>December<br>31, 2023 | 3 Months<br>Ended<br>December<br>31, 2022 | 12 Months<br>Ended<br>December<br>31, 2023 | 12 Months<br>Ended<br>December<br>31, 2022 |
|---|---|---|--|--|
| Net income (loss)  Cash flows from operating activities  Distributions paid (1)  Distributions declared (1) | \$ 27,253<br>33,885<br>8,395<br>13,663    | \$ (100,950)<br>27,863<br>7,873<br>12,844 | \$ 92,240<br>89,619<br>32,038<br>53,027    | \$ 103,959<br>91,181<br>31,373<br>49,842   |
| Excess (deficit) of net income/loss compared to distributions paid  | 18,858                                    | (108,823)                                 | 60,202                                     | 72,586                                     |
| Excess (deficit) of net income/loss compared to distributions declared                                      | 13,590                                    | (113,794)                                 | 39,213                                     | 54,117                                     |
| Excess of cash flows from operations over distributions paid  | 25,490                                    | 19,990                                    | 57,581                                     | 59,808                                     |
| Excess of cash flows from operations over distributions declared  | 20,222                                    | 15,019                                    | 36,592                                     | 41,339                                     |

<sup>(1)</sup> Includes distributions on LP Class B units

For the year ended December 31, 2023, cash flows from operating activities exceeded distributions paid by \$57.6 million. Net income (loss) is not used as a proxy for distributions as it includes fair value changes on investment properties and fair value change on financial instruments, which are not reflective of the Trust's ability to make distributions. Amounts retained in excess of the declared distributions are used to fund acquisitions and capital expenditure requirements.

| Total liabilities                                | 1,862,957    |       | 31,552                    | 1,894,509                    | 1,818,217    |                                  | 18,257                       | 1,836,474                    |
| Unitholders' equity                              |              |       |                           |                              |              |                                  |                              |                              |
| Unit capital                                     | 1,088,679    |       | -                         | 1,088,679                    | 1,052,858    |                                  | -                            | 1,052,858                    |
| Retained earnings                                | 1,484,702    |       | -                         | 1,484,702                    | 1,444,518    |                                  | -                            | 1,444,518                    |
| Total Unitholders' equity                        | 2,573,381    |       | -                         | 2,573,381                    | 2,497,376    |                                  | -                            | 2,497,376                    |
| Total liabilities and Unitholders' equity        | \$ 4,436,338 | \$    | 31,552                    | \$ 4,467,890                 | \$ 4,315,593 | \$                               | 18,257                       | \$ 4,333,850                 |

<sup>(1)</sup> Proportionate investment properties consists of \$4,298,385 of income producing properties (December 2022 - \$4,152,141) and \$91,162 of properties under development (December 2022 - \$146,724).

# **LIQUIDITY AND CAPITAL RESOURCES**

InterRent REIT's overall debt level was at 38.1% of Gross Book Value ("GBV") at December 31, 2023. GBV is a non-GAAP term that is defined in the DOT and includes all operations. The following chart sets out the Trust's computed Debt-to-GBV:

| In \$ 000's                    | Dec | ember 31, 2023 | Dec | ember 31, 2022 |
|--------------------------------|-----|----------------|-----|----------------|
| Total assets per balance sheet | \$  | 4,436,338      | \$  | 4,315,593      |
| Mortgages payable              |     | 1,650,035      | \$  | 1,654,449      |
| Credit facilities              |     | 40,847         |     | -              |
| Total debt                     | \$  | 1,690,882      | \$  | 1,654,449      |
| Debt-to-GBV                    |     | 38.1%          |     | 38.3%          |

With a DOT limit of 75% of Debt-to-Gross Book Value, InterRent REIT has the ability to further leverage the existing portfolio to assist with future investments in new assets. The Trust is conscious of the current credit environment and how this affects the ability of the Trust to grow. Management continues to evaluate on-going repositioning efforts, potential new acquisition opportunities as well as potential dispositions in order to continue to grow the Trust in a fiscally prudent manner.

#### INTEREST AND DEBT SERVICE COVERAGE

The following schedule summarizes the interest and debt service coverage ratios for InterRent for the comparable rolling 12-month periods ending December 31, 2023 (GAAP basis):

| In \$000's                       | onths Ended<br>mber 31, 2023 | Nonths Ended<br>mber 31, 2022 |
|----------------------------------|------------------------------|-------------------------------|
| NOI                              | \$<br>155,614                | \$<br>138,423                 |
| Less: Administrative costs       | 16,616                       | 14,679                        |
| EBITDA                           | \$<br>138,998                | \$<br>123,744                 |
| Interest expense (1)             | \$<br>60,588                 | \$<br>45,910                  |
| Interest coverage ratio          | 2.29x                        | 2.70x                         |
| Contractual principal repayments | \$<br>29,806                 | \$<br>28,936                  |
| Total debt service payments      | \$<br>90,394                 | \$<br>74,846                  |
| Debt service coverage ratio      | 1.54x                        | 1.65x                         |

<sup>(1)</sup> Interest expense includes interest on mortgages and credit facilities, including interest capitalized to properties under development and interest income, and excludes interest (distributions) on units classified as financial liabilities.

#### MORTGAGE AND DEBT SCHEDULE

The following schedule summarizes the aggregate future minimum principal payments and debt maturities for the mortgages of InterRent REIT, excluding mortgages associated with assets held for sale:

| Year Maturing | Mortgage<br>Balances At<br>December 31, 2023<br>(in \$ 000's) | Weighted<br>Average by<br>Maturity | Weighted<br>Average Interest<br>Rate |
|---------------|---|------------------------------------|--------------------------------------|
| 2024          | \$ 281,226  | 16.6%                              | 5.56%                                |
| 2025          | \$ 226,642  | 13.4%                              | 3.25%                                |
| 2026          | \$ 144,141  | 8.5%                               | 2.84%                                |
| 2027          | \$ 212,074  | 12.5%                              | 3.74%                                |
| 2028          | \$ 241,153  | 14.3%                              | 3.13%                                |
| Thereafter    | \$ 586,071  | 34.7%                              | 2.98%                                |
| Total         | \$ 1,691,307  | 100.0%                             | 3.50%                                |

At December 31, 2023, the average term to maturity of the mortgage debt was approximately 4.7 years and the weighted average cost of mortgage debt was 3.50%. At December 31, 2023, approximately 83% of InterRent REIT's mortgage debt was backed by CMHC insurance.

During the year, the Trust closed on three new mortgages for gross loan proceeds of \$67.7 million, up-financed two mortgages for gross loan proceeds of \$33.3 million (maturing loans totaled \$20.2 million), renewed ten mortgages totaling \$119.3 million, and renewed a mortgage facility totaling \$67.5 million (net of a \$27.2 million paydown). Further to this the Trust assumed two mortgages totaling \$13.8 million as part of acquisitions through its joint ventures, accounted through the equity method on the financial statements. The net result at December 31, 2023 compared to December 31, 2022 was:

- Slight drop in overall term to maturity, to 4.7 years in 2023 from 5.2 years at the end of 2022;
- An increase in the weighted average cost of mortgage debt to 3.50% from 3.22%; and
- A slight increase in the mortgage debt backed by CMHC from 82% to 83%

As at December 31, 2023, the Trust had the following credit facilities:

- A \$3.0 million demand credit facility with a Canadian chartered bank secured by a general security agreement. Interest is charged at prime plus a pre-defined spread. As at December 31, 2023, the Trust had no amounts drawn on this facility.
- A \$105.0 million term credit facility, maturing in 2025, with a Canadian chartered bank secured by a general security agreement and second collateral mortgages on eight of the Trust's properties. Interest is charged at a pre-defined spread for prime advances and banker's acceptances. As at December 31, 2023, the Trust had utilized \$40.8 million of this facility.
- A \$15.0 million term credit facility, maturing in 2025, with a Canadian chartered bank secured by a general security agreement, a first mortgage on one of the Trust's properties and second collateral mortgages on one of the Trust's properties. Interest is charged at prime plus a pre-defined spread. As at December 31, 2023, the Trust had a minimal amount outstanding on this facility.
- A \$100.0 million term credit facility, maturing in 2025, with a Canadian chartered bank secured by a general security agreement, first mortgages on two of the Trust's properties and second collateral mortgages on four of the Trust's properties. Interest is charged at a pre-defined spread for prime advances and banker's acceptances. As at December 31, 2023, the Trust had no amounts drawn on this facility.

## **ACCOUNTING**

#### **FUTURE ACCOUNTING CHANGES**

Amendment to IAS 1, Presentation of Financial Statements - Classification of Liabilities as Current or Non-Current

In January 2020, the IASB issued amendments to IAS 1 to specify the requirements for classifying liabilities as current or noncurrent. The narrow scope amendments affect only the presentation of liabilities in the statement of financial position and not the amount or timing of their recognition. It clarifies that the classification of liabilities as current or non-current is based on rights that are in existence at the end of the reporting period and specifies that classification is unaffected by expectations about whether an entity will exercise its right to defer settlement of a liability. It also introduces a definition of 'settlement' to make clear that settlement refers to the transfer to the counterparty of cash, equity instruments, other assets or services. The amendments are effective for annual reporting periods beginning on or after January 1, 2024. Earlier application is permitted. The implementation of these amendments will not have a significant impact on the Trust as the balance sheet is presented on a liquidity basis.

## **RISKS AND UNCERTAINTIES**

The Trust, its business and the transactions contemplated in this MD&A are subject to material risks, both known and unknown, including, but not limited to the following:

The Trust is exposed to a variety of risks, general and specific. General risks are the risks associated with general conditions in the real estate sector, and consist largely of commonly exposed risks affecting the real estate industry as a whole. Specific risks are the risks specific to the Trust and its operations, such as credit, market, liquidity and operational risks.

#### **CURRENT ECONOMIC RISKS**

InterRent REIT must raise mortgage funds for mortgages as they mature and for acquisitions. Given the interconnectivity of the global economy and the current global economic environment, there is no guarantee that the Trust will be able to secure such funds on a commercially beneficial basis, or at all, and the failure to raise sufficient funds could have a material adverse effect on the business of the Trust and the market value of its securities.

#### REAL ESTATE INDUSTRY RISK

Real estate investments are generally subject to varying degrees of risk depending on the nature of the property. These risks include changes in general economic conditions (such as the availability and cost of mortgage funds), local conditions (such as an oversupply of space or a reduction in demand for real estate in the area), government regulations (such as new or revised residential resident legislation), the attractiveness of the properties to residents, competition from others with available space and the ability of the owner to provide adequate maintenance at an economic cost. The performance of the economy in each of the areas in which the Trust's properties are located, including the financial results and labour decisions of major local employers, can have an impact on revenues from the properties and their underlying values.

Additional factors which may further adversely affect revenues from the Trust's properties and their underlying values include the general economic climate, local conditions in the areas in which properties are located, such as an abundance of supply or a reduction in demand, the attractiveness of the properties, competition from other properties, the Trust's ability to provide adequate facilities maintenance, services and amenities, the ability of residents to pay rent and the ability of the Trust to rent vacant units on favourable terms.

Certain significant expenditures, including property taxes, maintenance costs, mortgage payments, insurance costs and related charges, must be made regardless of whether or not a property is producing sufficient income to service these expenses. The Trust's properties are subject to mortgages, which require significant debt service payments. If the Trust were unable or unwilling to meet mortgage payments on any property, losses could be sustained as a result of the mortgagee's exercise of its rights of foreclosure or of sale. Real estate is relatively illiquid. Such illiquidity will tend to limit the Trust's ability to vary its portfolio promptly in response to changing economic or investment conditions. In addition, financial difficulties of other property owners resulting in distress sales may depress real estate values in the markets in which the Trust operates. The majority of the Trust's properties were constructed in the 1960's and 1970's and require ongoing capital expenditures, the amount and timing of which is difficult to predict. These expenditures could exceed the Trust's existing reserve estimates which could have a material adverse effect upon Distributable Income.

The nature of the Trust's business is such that refurbishment and structural repairs are required periodically, in addition to regular on-going maintenance.

#### MULTI-UNIT RESIDENTIAL SECTOR RISK

Income producing properties generate income through rent payments made by residents of the properties. Upon the expiry of any lease, there can be no assurance that the lease will be renewed or the resident replaced. The terms of any subsequent lease may be less favourable to the Trust than the existing lease. The Trust is dependent on leasing markets to ensure vacant residential space is leased, expiring leases are renewed and new residents are found to fill vacancies. A disruption in the economy could have a significant impact on how much space residents will lease and the rental rates paid by residents. This would adversely affect the income produced by the Trust's properties as a result of downward pressure on rents.

## PROPERTY VALUATION RISK

The Trust conducts a valuation assessment on its properties on a quarterly basis. Property values fluctuate over time in response to market factors and the underlying inputs used in the valuation model, and therefore the fair value of the Trust's portfolio could change materially. The Trust is responsible for the reasonableness of the assumptions and for the accuracy of the inputs into the valuation model. In order to substantiate the management's valuation, the Trust engages a leading independent real estate appraisal firm to provide appraisals for substantially all of the portfolio on an annual basis. Errors in the inputs or assumptions may result in an inaccurate valuation of the properties. Any changes to the value of the Trust's properties may impact Unitholder value.

#### **INFLATION RISKS**

Although the inflation rate in Canada has declined since June 2022, it still remains at a high level. The rate of inflation impacts the economic and business environments in which the Trust operates. Recent inflationary pressures experienced domestically and globally, external supply constraints, tight labour markets and strong demand for

goods and resources, together with the imposition by governments of higher interest rates or wage and price controls as a means of curbing inflationary increases, will put pressure on the Trust's development, financing, operation and labour costs and could negatively impact levels of demand for real property.

Further increases to inflation or prolonged inflation above central banks' targets could lead to further increases to interest rates by central banks, which could have a more pronounced negative impact on any variable rate debt the Trust is subject to or incurs in the future and on its results of operations. Similarly, during periods of high inflation, annual rent increases may be less than the rate of inflation on a continual basis. Substantial inflationary pressures, high interest rates, and other increased costs may have an adverse impact on the Trust's tenants if increases in their living expenses exceed any increase in their incomes. This may adversely affect the tenants' ability to pay rent, which could negatively affect the Trust's financial condition.

#### **ENVIRONMENTAL AND CLIMATE CHANGE RISKS**

As an owner and manager of real property, the Trust is subject to various Canadian federal, provincial, and municipal laws relating to environmental matters. These laws could encumber the Trust with liability for the costs of removal and remediation of certain hazardous substances or wastes released or deposited on or in its properties or disposed of at other locations. The failure to remove or remediate such substances, if any, could adversely affect the Trust's ability to sell its real estate, or to borrow using real estate as collateral, and could potentially also result in claims or other proceedings against the Trust. Although the Trust is not aware of any material non-compliance with environmental laws at any of its properties nor is it aware of any pending or threatened investigations or actions by environmental regulatory authorities in connection with any of its properties or any material pending or threatened claims relating to environmental conditions at its properties, no assurance can be given that environmental laws will not result in significant liability to the Trust in the future or otherwise adversely affect the Trust's business, financial condition or results of operations. The Trust has formal policies and procedures to review and monitor environmental exposure. The Trust has made, and will continue to make, the necessary capital expenditures for compliance with environmental laws and regulations. Environmental laws and regulations can change rapidly and the Trust may become subject to more stringent environmental laws and regulations in the future. Compliance with more stringent environmental laws and regulations could have a material adverse effect on the Trust's business, financial condition or results of operation.

The Trust's investment properties are exposed to physical climate change risks, including natural disasters, and severe weather, such as heavy rain and flooding, high winds, wildfires, blizzards, ice storms and thunderstorms that may cause damage. As weather becomes more erratic, damage to investment properties may result in increased restoration costs, loss of revenue in the event of business disruption, potential decrease in property values and increased costs to insure properties against climate-related risks. Physical and transitional climate-related risks are considered by the Trust as part of its ongoing risk management processes. The materiality of such risks varies among the business operations of the Trust and the jurisdictions in which such operations are conducted. Furthermore, as a real property owner, the Trust faces the risk that its properties will be subject to government initiatives and reforms aimed at countering climate change, such as transitioning to a low carbon economy and may entail extensive changes to policies regulations and technologies to address mitigation and adaption efforts. The Trust may incur financial costs to comply with various reforms. Any failure to adhere and adapt to climate change could result in fines or adversely affect the Trust's reputation, operations, or financial performance.

#### ESG TARGETS AND COMMITMENTS RISK

InterRent has announced certain targets and ambitions relating to ESG. To achieve these goals and to respond to changing market demand, InterRent may incur additional costs and invest in new technologies. It is possible that the return on these investments may be less than InterRent expects, which may have an adverse effect on its business, financial condition and reputation.

## PANDEMICS AND OTHER PUBLIC HEALTH CRISES RISK

Pandemics and other public health crises can result in significant economic disruptions, slowdowns and increased volatility in financial markets, which could have adverse consequences on InterRent including, but not limited to,

business continuity interruptions, disruptions and costs of development activities, unfavorable market conditions, and threats to the health and safety of employees. Such occurrences could also potentially affect the market price for the equity securities of InterRent, its current credit rating, total return and distributions. InterRent's residents may also face economic challenges as a result of a pandemic or other public health crisis that may adversely affect their ability to pay rent in full, on a timely basis or at all. Such events could materially adversely affect InterRent's operations, reputation and financial condition, including the fair value of InterRent's properties.

#### JOINT VENTURE AND CO-OWNERSHIP RISK

InterRent participates in joint ventures, partnerships, and other similar arrangements with third parties, which may give rise to risks including, but not limited to, the possibility of the Trust's dependency on partners or co-ventures that are not under the control of the Trust and that might compete with InterRent for opportunities, become bankrupt or expose the Trust to liability or reputational damage that could have an adverse impact on the Trust. Moreover, the partners may have interests or goals that are different or inconsistent with the Trust, which may result in the Trust taking actions that are in the interest of the partners collectively, but not in the Trust's sole interest. Additionally, the Trust may become engaged in a dispute with the partners which may affect its ability to operate.

#### **COMPETITION RISK**

Each segment of the real estate business is competitive. Numerous other residential developers and apartment owners compete in seeking residents. Although the Trust's strategy is to own multi-residential properties in desirable locations in each market in which it operates, some of the properties of the Trust's competitors may be newer, better located or better capitalized. The existence of alternative housing could have a material adverse effect on the Trust's ability to lease space in its properties and on the rents charged or concessions granted, and could adversely affect the Trust's revenues and its ability to meet its obligations.

#### **GENERAL UNINSURED LOSSES**

The Trust carries comprehensive general liability, fire, flood, extended coverage and rental loss insurance with policy specifications, limits and deductibles customarily carried for similar properties. There are, however, certain types of risks (generally of a catastrophic nature such as war or environmental contamination), which are either uninsurable or not economically insurable. The Trust will continue to procure insurance for such risks, subject to certain standard policy limits and deductibles and will continue to carry such insurance if it is economical to do so. Should an uninsured or underinsured loss occur, the Trust could lose its investment in, and anticipated profits and cash flows from, one or more of its properties, and would continue to be obligated to repay any recourse mortgage indebtedness on such properties. There is a risk that any significant increase in insurance costs will impact negatively upon the profitability of the Trust.

#### **CREDIT RISK - LEASES**

The key credit risk to the Trust is the possibility that its residents will be unable or unwilling to fulfill their lease term commitments. Key drivers of demand include employment levels, population growth, demographic trends and consumer confidence. The failure by residents to fulfill their lease commitments could have a material adverse effect upon Distributable Income.

#### LOCAL REAL ESTATE MARKET RISK AND ASSET CONCENTRATION

There is a risk that the Trust would be negatively affected by the new supply of, and demand for, multi-unit residential suites in its local market areas. Any significant amount of new construction will typically result in an imbalance in supply and cause downward price pressure on rents.

#### RENT CONTROL LEGISLATION RISK

Rent control legislation risk is the risk of the implementation or amendment of new or existing legislative rent controls in the markets where the Trust operates, which may have an adverse impact on the Trust's operations.

Certain provinces of Canada have enacted residential tenancy legislation which imposes, among other things, rent control guidelines that limit the Trust's ability to raise rental rates at its properties. Limits on the Trust's ability to

raise rental rates at its properties may adversely affect the Trust's ability to increase income from its properties. In addition to limiting the Trust's ability to raise rental rates, residential tenancy legislation in such provinces provide certain rights to residents, while imposing obligations upon the housing provider. Residential tenancy legislation in the Provinces of Ontario, British Columbia, and Québec prescribe certain procedures which must be followed by a housing provider in order to terminate a residential tenancy. As certain proceedings may need to be brought before the respective administrative body governing residential tenancies as appointed under a province's residential tenancy legislation, it may take several months to terminate a residential lease, even where the resident's rent is in arrears.

Further, residential tenancy legislation in certain provinces provide the resident with the right to bring certain claims to the respective administrative body seeking an order to, among other things, compel the housing provider to comply with health, safety, housing and maintenance standards. As a result, the Trust may, in the future, incur capital expenditures which may not be fully recoverable from residents. The inability to fully recover substantial capital expenditures from residents may have an adverse impact on the Trust's financial conditions and results of operations and decrease the amount of cash available for distributions.

Residential tenancy legislation may be subject to further regulations or may be amended, repealed or enforced, or new legislation may be enacted, in a manner which will materially adversely affect the ability of the Trust to maintain the historical level of earnings of its properties.

#### UTILITY AND PROPERTY TAX RISK

Utility and property tax risk relates to the potential loss the Trust may experience as a result of higher resource prices as well as its exposure to significant increases in property taxes. Over the past few years, property taxes have increased as a result of re-valuations of municipal properties and their adherent tax rates. For the Trust, these re-valuations have resulted in significant increases in some property assessments due to enhancements. Utility expenses, mainly consisting of natural gas and electricity service charges, have been subject to considerable price fluctuations over the past several years. Any significant increase in these resource costs that the Trust cannot pass on to the resident may have a negative material impact on the Trust.

#### **OPERATIONAL RISK**

Operational risk is the risk that a direct or indirect loss may result from an inadequate or failed technology, from a human process or from external events. The impact of this loss may be financial loss, loss of reputation or legal and regulatory proceedings.

## **RENOVATION RISKS**

The Trust is subject to the financial risk of having unoccupied units during extended periods of renovations. During renovations, these properties are unavailable for occupancy and do not generate income. Certain significant expenditures, including property taxes, maintenance costs, interest payments, insurance costs and related charges must be made throughout the period of ownership of real property regardless of whether the property is producing revenue. Delays in the renovation of a building or individual apartment could delay the renting of such building or units resulting in an increased period of time where the building is not producing revenue, or produces less revenue than a fully occupied building. The Trust intends to address these risks by acquiring financing to fund renovations, staggering renovations and by carrying out a detailed capital expenditures budget to monitor its cash position on a monthly basis.

#### **DEVELOPMENT RISK**

Development projects are subject to risks associated with (i) a failure to receive, or a delay in receiving, zoning, occupancy and other required permits and authorizations; (ii) construction delays, cost overruns, or other unanticipated increases to project costs; (iii) the availability of project financing; (iv) the ability to achieve timely occupancy upon completion; (v) the potential that the Trust will incur costs on projects which are not completed; and (vi) contractor and subcontractor disputes, strikes, labour disputes, or supply disruptions. The above risks could result in additional delays or expenses and could impact the Trust's operations and financial results.

#### SUPPLY CHAIN RISK

On January 1, 2024, an Act to enact the Fight Against Forced Labour and Child Labour in Supply Chains Act and to amend the Customs Tariff ("Supply Chains Act") came into force. Starting in May 2024, the Supply Chains Act introduce a public reporting requirement that will apply to many governmental institutions and private sector businesses, including InterRent. While there are no identified instances of InterRent using forced labour or child labour in its supply chain, there is a risk that InterRent's supply chain may have actual or alleged forced or child labour. Should such an instance arise, InterRent would be required to take measures to address such a claim or risk of a claim, including disrupting its supply chain operations in pursuit of such a remedy, which could result in operational, financial, business or reputational harm.

#### FLUCTUATIONS AND AVAILABILITY OF CASH DISTRIBUTIONS

Although the Trust intends to continue distributing its Distributable Income, the actual amount of Distributable Income distributed in respect of the Units will depend upon numerous factors, some of which may be beyond the control of the Trust. The distribution policy of the Trust is established by the Trustees and is subject to change at the discretion of the Trustees. The recourse of Unitholders who disagree with any change in policy is limited and could require such Unitholders to seek to replace the Trustees. Distributable Income may exceed actual cash available to the Trust from time to time because of items such as principal repayments, resident allowances, leasing commissions and capital expenditures and redemption of Units, if any. The Trust may be required to use part of its debt capacity or to reduce distributions in order to accommodate such items.

#### CYBER SECURITY RISK

A cyber incident is any adverse event that threatens the confidentiality, integrity or availability of the Trust's information technology resources. More specifically, a cyber incident is an intentional attack or an unintentional event that can include gaining unauthorized access to information systems to disrupt operations, corrupt data or steal confidential information. The Trust's primary risks that could directly result from the occurrence of a cyber incident include operational interruption, damage to its reputation, damage to relationships with its vendors and residents and disclosure of confidential vendor or resident information. The Trust has implemented processes, procedures and controls to mitigate these risks, but these measures, as well as its increased awareness of a risk of a cyber incident, do not guarantee that its financial results will not be negatively impacted by such an incident.

#### MARKET PRICE OF UNITS

One of the factors that may influence the market price of the Units is the annual yield thereon. Accordingly, an increase in market interest rates may lead purchasers of Units to expect a higher annual yield which could adversely affect the market price of the Units. In addition, the market price for the Units may fluctuate significantly and may be affected by changes in general market conditions, fluctuations in the markets for equity securities, short-term supply and demand factors for real estate investment trusts and numerous other factors beyond the control of the Trust. The Trust has no obligation to distribute to Unitholders any fixed amount, and reductions in, or suspensions of, cash distributions may occur that would reduce yield. There is no assurance that there will exist a liquid market for trading in the Units which may have an adverse effect on the market price of the Units. Trading prices of the Units may not correspond to the underlying value of the Trust's assets.

## **DILUTION RISK**

InterRent may, in its sole discretion, issue additional Units, or securities convertible or exchangeable into Units, from time to time, and the voting power and/or economic interest of Unitholders may be diluted thereby. InterRent cannot predict the size or nature of future sales or issuances of securities, or the effect, if any, that such future sales and issuances will have on the market price of the Units.

#### LEGAL RIGHTS NORMALLY ASSOCIATED WITH THE OWNERSHIP OF SHARES OF A CORPORATION

As holders of Units, Unitholders do not have all of the statutory rights normally associated with ownership of shares of a company including, for example, the right to bring "oppression" or "derivative" actions against the Trust. The Units are not "deposits" within the meaning of the *Canada Deposit Insurance Corporation Act* (Canada) and are not insured under the provisions of that Act or any other legislation. Furthermore, the Trust is not a trust company and,

accordingly, is not registered under any trust and loan company legislation as it does not carry on or intend to carry on the business of a trust company.

#### ABILITY OF UNITHOLDERS TO REDEEM UNITS

It is anticipated that the redemption right attached to the Units will not be the primary mechanism by which holders of such Units liquidate their investments. The entitlement of holders of Units to receive cash upon the redemption of their Units is subject to the limitations that: (i) the total amount payable by the Trust in respect of such Units and all other Units tendered for redemption in the same calendar month shall not exceed \$50,000 (provided that such limitation may be waived at the discretion of the Trustees); (ii) at the time such Units are tendered for redemption, the outstanding Units shall be listed for trading on a stock exchange or traded or quoted on another market which the Trustees consider, in their sole discretion provides representative fair market value prices for such Units; and (iii) the normal trading of the Units is not suspended or halted on any stock exchange on which the Units are listed for trading or, if not so listed, on any market on which the Units are quoted for trading, on the redemption date or for more than five trading days during the ten trading day period ending on the redemption date.

#### UNITHOLDER ACTIVISM RISK

Responding to activist campaigns that contest or conflict with InterRent's governance and strategic direction can be costly and time-consuming, disrupting business operations and diverting the attention and resources of the Board of Trustees, management, and employees. Unitholder activism may result in uncertainty relating to the leadership, governance and strategic direction of InterRent, which could adversely affect or undermine InterRent's ability to execute on its strategy, harm InterRent's business and create adverse volatility in the market price and trading volume of Trust Units. Events such as these could adversely affect InterRent's operating and financial results.

#### **REGULATORY APPROVALS RISK**

Upon a redemption of Units or termination of the Trust, the Trustees may distribute securities directly to the Unitholders, subject to obtaining any required regulatory approvals. No established market may exist for the securities so distributed at the time of the distribution and no market may ever develop. In addition, the securities so distributed may not be qualified investments for Mutual Fund Plans (Plans), depending upon the circumstances at the time.

## **CHANGES IN LEGISLATION**

There can be no assurance that the Canadian federal income tax laws (or the judicial interpretation thereof), the administrative and/or assessing practices of the Canadian Revenue Agency (CRA) and/or the treatment of mutual fund trusts (including real estate investment trusts) and/or SIFT trusts (as defined below) will not be changed in a manner which adversely affects the Trust or Unitholders.

#### SIFT RULES

Certain rules in the Tax Act (the "SIFT Rules") affect the tax treatment of "specified investment flow-through trusts ("SIFT trusts"), and their unitholders. Subject to the SIFT Rules a SIFT trust is iwtself liable to pay income tax on certain income at a rate that is substantially equivalent to the combined federal and provincial general tax rate applicable to taxable Canadian corporations. Such non-deductible distributions paid to a holder of units of the SIFT trust are generally deemed to be taxable dividends received by the holder of such units from a taxable Canadian corporation. However, a trust will not be considered to be a SIFT trust for a taxation year if it qualifies as a "real estate investment trust" (as defined in the Tax Act) for that year (the "REIT Exception").

#### THE REIT EXCEPTION

Based on a review of the Trust's assets and revenues, management believes that the Trust satisfied the tests to qualify for the REIT Exception throughout 2021 and therefore the SIFT Rules will have no application and the Trust and its Unitholders will not, directly or indirectly, be subject to tax imposed by the SIFT Rules. However, as the REIT exemption includes complex revenue and asset tests no assurances can be provided that the Trust will continue to qualify for any subsequent year.

In the unlikely event that the Trust does not qualify for the REIT Exception, distributions of income may be treated by the Trust as distributions of capital which are not taxed and instead reduce the adjusted cost base of the Unitholder's Units.

The REIT Exception is applied on an annual basis. Accordingly, if the Trust did not qualify for the REIT Exception in a particular Taxation Year, it may be possible to restructure the Trust such that it may qualify in a subsequent Taxation Year. There can be no assurances, however, that the Trust will be able to restructure such that it will not be subject to the tax imposed by the SIFT Rules, or that any such restructuring, if implemented, would not result in material costs or other adverse consequences to the Trust and Unitholders. The Trust intends to take such steps as are necessary to ensure that, to the extent possible, it qualifies for the REIT Exception and any negative effects of the SIFT Rules on the Trust and Unitholders are minimized.

#### OTHER CANADIAN TAX MATTERS

Although the Trust is of the view that all expenses to be claimed by the Trust and/or its subsidiary entities will be reasonable and deductible and that the cost amount and capital cost allowance claims of such entities will have been correctly determined, there can be no assurance that the Tax Act or the interpretation of the Tax Act will not change, or that the CRA will agree. If the CRA successfully challenges the deductibility of such expenses, the taxable income of the Trust and/or its subsidiary entities and indirectly the Unitholders may increase or change. The extent to which distributions will be non-taxable in the future will depend in part on the extent to which the Trust and/or its subsidiary entities is able to deduct capital cost allowance relating to its Properties.

In structuring its affairs, the Trust consults with its tax and legal advisors and receives advice as to the optimal method in which to complete its business objectives while at the same time minimizing or deferring taxes, where possible. There is no guarantee that the relevant taxing authorities will not take a different view as to the ability of the Trust to utilize these strategies. It is possible that one or more taxing authorities may review these strategies and determine that tax should have been paid, in which case the Trust may be liable for such taxes. Such increased tax liability could have a material adverse effect upon the Trust's ability to make distributions to Unitholders.

#### INVESTMENT ELIGIBILITY

There can be no assurance that income tax laws and the treatment of mutual fund trusts will not be changed in a manner which adversely affects holders of Units. If the Trust ceases to qualify as a "mutual fund trust" under the Tax Act and the Units thereof cease to be listed on a designated stock exchange (which currently includes the TSX), Units will cease to be qualified investments for registered retirement savings plans, deferred profit sharing plans, registered retirement income funds, registered education savings plans, registered disability savings plans and tax-free savings accounts. The Tax Act imposes penalties for the acquisition or holding of non-qualified investments.

# RISKS ASSOCIATED WITH DISCLOSURE CONTROLS AND PROCEDURES ON INTERNAL CONTROL OVER FINANCIAL REPORTING

The Trust could be adversely affected if there are deficiencies in disclosure controls and procedures or internal control over financial reporting.

The design and effectiveness of disclosure controls and procedures and internal control over financial reporting may not prevent all errors, misstatements or misrepresentations. Deficiencies, including material weaknesses, in internal control over financial reporting which may occur could result in misstatements of the Trust's results of operations, restatements of financial statements, a decline in the Unit price, or otherwise materially adversely affect the Trust's business, reputation, results of operations, financial condition or liquidity.

#### UNITHOLDERS LIMITED LIABILITY

Recourse for any liability of the Trust is intended to be limited to the assets of the Trust. The Amended and Restated Declaration of Trust provides that no Unitholder or annuitant under a plan of which a Unitholder acts as trustee or carrier (an "annuitant") will be held to have any personal liability as such, and that no resort shall be had to the private property of any Unitholder or annuitant for satisfaction of any obligation or claim arising out of or in connection with any contract or obligation of the Trust or of the Trustees. Because of uncertainties in the law relating

to investment trusts, there is a risk (which is considered by counsel to be remote in the circumstances) that a Unitholder or annuitant could be held personally liable for obligations of the Trust (to the extent that claims are not satisfied by the Trust) in respect of contracts which the Trust enters into and for certain liabilities arising other than out of contract including claims in tort, claims for taxes and possibly certain other statutory liabilities. The Trust will seek to limit recourse under all of its material contracts to the assets of the Trust. However, in conducting its affairs, the Trust will be indirectly acquiring real property investments, subject to existing contractual obligations, including obligations under mortgages and leases. Trustees will use all reasonable efforts to have any such obligations under mortgages on such properties and material contracts, other than leases, modified so as not to have such obligations binding upon any of the Unitholders or annuitants personally. However, the Trust may not be able to obtain such modification in all cases. To the extent that claims are not satisfied by the Trust, there is a risk that a Unitholder or annuitant will be held personally liable for obligations of the Trust where the liability is not disavowed as described above. Ontario has enacted legislation intended to remove uncertainty about the liability of Unitholders of publicly traded trusts. The Trust Beneficiaries' Liability Act, 2004, implemented on January 1, 2005, is a clear legislative statement that the Unitholders of a trust that is a reporting issuer and governed by the laws of Ontario will not be personally liable for the obligations and liabilities of the trust or any of its trustees that arise after The Trust Beneficiaries' Liability Act, 2004, came into force, which The Trust Beneficiaries' Liability Act, 2004, states was December 16, 2004.

#### STRUCTURAL SUBORDINATION OF DEBT

Liabilities of a parent entity with assets held by various subsidiaries may result in the structural subordination of the lenders to the parent entity. The parent entity is entitled only to the residual equity of its subsidiaries after all debt obligations of its subsidiaries are discharged. In the event of a bankruptcy, liquidation or reorganization of the Trust, holders of indebtedness of the Trust (including holders of Notes) may become subordinate to lenders to the subsidiaries of the Trust.

#### STATUTORY REMEDIES

The Trust is not a legally recognized entity within the relevant definitions of the *Bankruptcy and Insolvency Act*, the *Companies' Creditors Arrangement Act* and in some cases, the *Winding Up and Restructuring Act*. As a result, in the event a restructuring of the Trust were necessary, the Trust would not be able to access the remedies available thereunder. In the event of a restructuring, a holder of debentures may be in a different position than a holder of secured indebtedness of a corporation.

## **OUTSTANDING INDEBTEDNESS**

The ability of the Trust to make cash distributions to Unitholders or to make other payments are subject to applicable law and contractual restrictions contained in instruments governing the Trust's indebtedness. Although the Trust is currently not in default under any existing loan agreements or guarantee agreements, any future default could have significant consequences for Unitholders. Further, the amount of the Trust's indebtedness could have significant consequences to holders of Units, including the ability of the Trust to obtain additional financing for working capital, capital expenditures or future acquisitions may be limited; and that a significant portion of the Trust's cash flow from operations may be dedicated to the payment of principal and interest on its indebtedness thereby reducing funds available for future operations and distributions. Additionally, some of The Trust's debt may be at variable rates of interest or may be renewed at higher rates of interest, which may affect cash flow from operations available for distributions. Also, in the event of a significant economic downtown, there can be no assurance that the Trust will generate sufficient cash flow from operations to meet required interest and principal payments. The Trust is subject to the risk that it may not be able to refinance existing indebtedness upon maturity or that the terms of such refinancing may be onerous. These factors may adversely affect the Trust's cash distributions.

#### DEPENDENCE ON KEY PERSONNEL

The management of the Trust depends on the services of certain key personnel. The termination of employment by any of these key personnel could have a material adverse effect on the Trust.

#### WORKFORCE AVAILABILITY AND TALENT MANAGEMENT

InterRent's ability to provide services to its residents is dependent on the availability of well-trained employees and contractors to service our residents as well as complete required maintenance and capital upgrades on our buildings. InterRent must balance the requirement to maintain adequate staffing levels while balancing the overall cost to the Trust. The inability to attract and retain an adequate workforce could have a material impact on the Trust's ability to maintain its buildings and service its residents.

#### POTENTIAL CONFLICTS OF INTEREST

The Trust may be subject to various conflicts of interest because of the fact that Trustees and officers of the Trust, including the Executive Chairperson who is a principal of a related party real estate company, are engaged in other real estate-related business activities. The Trust may become involved in transactions which conflict with the interests of the foregoing. Trustees may from time-to-time deal with persons, firms, institutions or corporations with which the Trust may be dealing, or which may be seeking investments similar to those desired by the Trust. The interests of these persons could conflict with those of the Trust. In addition, from time to time, these persons may be competing with the Trust for available investment opportunities. The Amended and Restated Declaration of Trust contains "conflicts of interest" provisions requiring Trustees to disclose material interests in material contracts and transactions and to refrain from voting thereon.

#### **DILUTION**

The number of Units the Trust is authorized to issue is unlimited. The Trustees have the discretion to issue additional Units in other circumstances, including pursuant to the Unit Option Plan, the Deferred Unit Plan and the Long Term Incentive Plan and upon conversion or exercise of other convertible securities. Any issuance of additional Units may have a dilutive effect on the existing holders of the Units. Future acquisitions and combinations with other entities could result in significant dilution.

#### RESTRICTIONS ON POTENTIAL GROWTH AND RELIANCE ON CREDIT FACILITIES

The payout by the Trust of a substantial part of its operating cash flow could adversely affect the Trust's ability to grow unless it can obtain additional financing. Such financing may not be available, or renewable, on attractive terms or at all. In addition, if current credit facilities were to be cancelled or could not be renewed at maturity on similar terms, the Trust could be materially and adversely affected.

#### PROPOSED PROPERTY ACQUISITIONS

There can be no assurance that the Trust will complete any proposed acquisitions described herein on the basis described or on expected closing dates, if at all. In the event the Trust does not complete proposed acquisitions, the Trust's financial performance may be negatively impacted until suitable acquisitions with appropriate investment returns can be made. There is no assurance that such suitable investments will be available to the Trust in the near future or at all.

#### PROPERTY ACQUISITION RISKS

InterRent's acquisition and investment strategy and market selection process may not ultimately be successful and may not provide positive returns on investment. The acquisition of properties or portfolios of properties entails risks that include the following, any of which could adversely affect InterRent's financial position and results of operations and its ability to meet its obligations: (i) InterRent may not be able to identify suitable properties to acquire or may be unable to complete the acquisition of the properties identified; (ii) properties acquired may fail to achieve the occupancy or rental rates projected at the time of the acquisition decision, which may result in the properties' failure to achieve the returns projected; (iii) InterRent's pre-acquisition evaluation of the physical condition of each new investment may not detect certain defects or identify necessary repairs, which could significantly increase InterRent's total acquisition costs; (iv) InterRent's investigation of a property or building prior to acquisition, may fail to reveal various liabilities, which could reduce the cash flow from the property or increase its acquisition cost; and (v) representations and warranties obtained from third party vendors may not adequately protect against unknown, unexpected or undisclosed liabilities and any recourse against such vendors may be limited by the financial capacity of such vendors.

An important factor in the success of the Trust is the ability of the management of the combined entities to coexist and, if appropriate, integrate all or part of the holdings, systems and personnel of such entities. The integration of businesses can result in unanticipated operational problems and interruptions, expenses and liabilities, the diversion of management attention and the loss of key employees, residents or suppliers. There can be no assurance that the business integration will be successful or that future acquisitions will not adversely affect the business, financial condition or operating results of the combined entities. There can be no assurance that the combined entities will not incur additional material charges in subsequent quarters to reflect additional costs associated with the Trust or that that the benefits expected from the Trust will be realized. The Trust's planned growth will require increasingly sophisticated financial and operational controls to be implemented. In the event that financial and operational controls do not keep pace with the Trust's expansion, the potential for unintended accounting and operational errors may increase.

#### INTEREST RISK

Interest risk is the combined risk that the Trust would experience a loss as a result of its exposure to a higher interest rate environment (interest rate risk) and the possibility that at the term end of a mortgage the Trust would be unable to renew the maturing debt either with the existing or an additional lender (renewal risk). The Trust attempts to manage its interest rate risk by maintaining a balanced, maturing portfolio with mortgage debt being financed for varying lengths of time through the implementation of a structured mortgage debt ladder. There can, however, be no assurance that the renewal of debt will be on as favourable of terms as the Trust's existing debt.

#### APPRAISALS OF PROPERTIES

An appraisal is an estimate of market value and caution should be used in evaluating data with respect to appraisals. It is a measure of value based on information gathered in the investigation, appraisal techniques employed and reasoning both quantitative and qualitative, leading to an opinion of value. The analysis, opinions, and conclusions in an appraisal are typically developed based on, and in conformity with, or interpretation of the guidelines and recommendations set forth in the Canadian Uniform Standards of Appraisal Practice. Appraisals are based on various assumptions of future expectations of property performance and while the appraiser's internal forecast of net income for the properties appraised are considered to be reasonable at that time, some of the assumptions may not materialize or may differ materially from actual experience in the future.

#### JOINT ARRANGEMENTS

The Trust has two development projects that are subject to joint control and are joint arrangements (joint ventures and joint operations). Risks associated with joint arrangements include the risk of non-payment for operating and capital costs from the partner, risk of inability to finance a property associated with a joint venture or limited partnership and the risk of a partner selling their interest in the properties.

## ZONING AND APPROVAL

Future acquisitions and development projects may require zoning and other approvals from local government agencies. The process of obtaining such approvals may take months or years, and there can be no assurance that the necessary approvals for any particular project will be obtained. Holding costs accrue while regulatory approvals are being sought, and delays could render future acquisitions and developments uneconomical.

#### **DEBT AND DISTRIBUTABLE INCOME**

Distributable Income available for distribution to Unitholders is based, directly and indirectly, on the ability of the Trust to pay distributions on its Units, such ability, in each case, is dependent upon the performance of the business of the Trust and its ability to maintain certain debt levels. The Trust will be required to refinance certain debt as it expires. The Trust may be unable to refinance such debt on terms as favourable as existing debt, or at all. In addition, the Trust's ability to borrow is subject to certain restrictive covenants contained in the Amended and Restated Declaration of Trust and certain credit agreements. The Trust's ability to make distributions may be materially affected should any of the foregoing conditions arise.

#### **LEGAL PROCEEDINGS**

In the normal course of operations, the Trust may become subject to a variety of legal and other claims. Management and legal counsel evaluate all claims on their apparent merits, and accrue management's best estimate of the estimated costs to satisfy such claims.

#### FINANCIAL RISK MANAGEMENT AND FINANCIAL INSTRUMENTS

#### a) Overview

The Trust is exposed to credit risk, liquidity risk and market risk. The Trust's primary risk management objective is to protect earnings and cash flow and, ultimately, Unitholders' value. Risk management strategies, as discussed below, are designed and implemented to ensure the Trust's risks and the related exposures are consistent with its business objectives and risk tolerance.

## b) Credit Risk

The Trust's credit risk is attributable to its rents and other receivables and loan receivable long-term incentive plan.

Credit risk arises from the possibility that: (i) residents may experience financial difficulty and be unable to fulfil their lease commitments; and (ii) a party defaults on the repayment of their debt causing a financial loss to the Trust.

The Trust has established various internal controls designed to mitigate credit risk such as credit checks and, where permitted, adequate security to assist in potential recoveries. While the Trust's credit controls and processes have been effective in mitigating credit risk, these controls cannot eliminate credit risk and there can be no assurance that these controls will continue to be effective or that the Trust's current credit loss experience will improve. The Trust monitors its collection process on a regular basis and all receivables from past residents and resident receivables over 30 days are provided for in allowances for doubtful accounts. The Trust believes that the concentration of credit risk of accounts receivable is limited due to its broad resident base, dispersed across varying geographic locations.

Credit risk relating to other receivables and loan receivable long-term incentive plan is mitigated through recourse against such parties and/or the underlying security. These receivables are considered to have low credit risk.

The amounts disclosed as rents and other receivables and loan receivable long-term incentive plan in the consolidated balance sheet are net of allowances for doubtful accounts. At December 31, 2022, the Trust had past due rents and other receivables of \$9.9 million net of an allowance for doubtful accounts of \$3.3 million which adequately reflects the Trust's credit risk.

#### c) Liquidity Risk

Liquidity risk is the risk that the Trust will not be able to meet its financial obligations as they fall due. The Trust manages liquidity risk through the management of its capital structure and financial leverage, as outlined in note 25(c) in the December 31, 2023 consolidated financial statements. It also manages liquidity risk by continuously monitoring actual and projected cash flows to ensure that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Trust's reputation.

As at December 31, 2023, the Trust had credit facilities as described in note 12 in the December 31, 2022 consolidated financial statements.

Note 11 in the December 31, 2023 consolidated financial statements reflects the contractual maturities for mortgage payable of the Trust at December 31, 2023, excluding interest payments. The Trust continues to refinance the outstanding debts as they mature. Given the Trust's available credit and its available liquid resources from both financial assets and on-going operations, management assesses the Trust's liquidity risk to be low.

## d) Fair Value

Financial instruments are defined as a contractual right to receive or deliver cash or another financial asset. The fair values of the Trust's financial instruments, except for mortgages payable, approximate their recorded values due to their short-term nature and or the credit terms of those instruments.

The fair value of the mortgages payable has been determined by discounting the cash flows using current market rates of similar instruments. These estimates are subjective in nature and therefore cannot be determined with precision. The fair value of mortgages payable and credit facilities is approximately \$1,762 million as at December 31, 2023 excluding any deferred financing costs.

Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instrument. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions could significantly affect estimates.

#### e) Market Risk

Market risk includes the risk that changes in interest rates will affect the Trust's cash flows or the fair value of its financial instruments.

At December 31, 2023, approximately 5% (December 31, 2022 - 3%) of the Trust's mortgage debt was at variable interest rates. The Trust's credit facilities bear interest at variable rates. If there was a 100 basis point change in the interest rate, cash flows would have changed by approximately \$1.1 million for the year ended December 31, 2023.

#### **OFF-BALANCE SHEET ARRANGEMENTS**

As of December 31, 2023 the Trust did not have any off-balance sheet arrangements in place.

#### RELATED PARTY TRANSACTIONS

The Audit Committee and Nominations and Governance Committee have reviewed and recommended approval to the Board, and the Board has subsequently approved, the entering into of a services agreement with CLV Group Developments to carry out certain entitlement, development, and construction services on behalf of the REIT in relation to the REITs developments. CLV Group Developments is a private company controlled by an officer and Trustee of the REIT with a long track record of developing and constructing multifamily properties in Ontario. In order to mitigate the potential conflict of interest, both firms retained separate and independent legal representation for this matter. In addition, an independent external consultant reviewed the services to be supplied and provided a report in regards to the typical range of fees that would be charged for such services. The fees included in the agreement are either at or below the bottom end of the range provided by the consultant. During the year ended December 31, 2023, the Trust incurred \$1.6 million (2022 - \$2.4 million) in entitlement, development, and construction management services related to the agreement which have been capitalized to the investment properties.

During the year ended December 31, 2023, 1,250,000 Class B LP Units were exchanged for 1,250,000 Trust Units (December 31, 2022 - nil) by a company controlled by an officer and Trustee of the Trust. All Class B LP Units are exchangeable at the option of the holder and the exchange occurred at market prices.

# DISCLOSURE CONTROLS AND PROCEDURES AND INTERNAL CONTROL OVER FINANCIAL REPORTING

Disclosure controls and procedures are designed to provide reasonable assurance that all relevant information is gathered and reported to senior management, including the Chief Executive Officer ("CEO") and the Chief Financial Officer ('CFO"), on a timely basis so that appropriate decisions can be made regarding public disclosure. The preparation of this information is supported by a set of disclosure controls and procedures implemented by management. Management, including the CEO and CFO, recognizes that any controls and procedures, no matter

how well-designed and operated, will have limitations and can only provide reasonable, and not absolute, assurance of achieving the desired control objectives.

#### DISCLOSURE CONTROLS AND PROCEDURES

As of December 31, 2023, the CEO and CFO evaluated, or caused to be evaluated under their direct supervision, the design and operating effectiveness of InterRent's disclosure controls and procedures (as defined in National Instrument 52-109, Certificate of Disclosure in Issuer's Annual and Interim Filings) and based on this evaluation, have concluded that such disclosure controls and procedures were appropriately designed and operating effectively.

#### INTERNAL CONTROL OVER FINANCIAL REPORTING

As of December 31, 2023, the CEO and CFO evaluated, or caused to be evaluated under their direct supervision, the effectiveness of InterRent's internal controls over financial reporting (as defined in National Instrument 52-109, Certificate of Disclosure in Issuer's Annual and Interim Filings) using the COSO International Control – Integrated Framework (2013), published by the Committee of Sponsoring Organization of the Treadway Commission. Based on that assessment, the CEO and CFO determined that internal controls over financial reporting were appropriately designed an operating effectively.

No changes were made in the design of internal controls over financial reporting during the period ended December 31, 2023 that have materially affected, or are likely to materially affect, InterRent's internal controls over financial reporting.

## **OUTSTANDING SECURITIES DATA**

As of February 29, 2024, the Trust had issued and outstanding: (i) 145,062,147 units; (ii) LP Class B Units that are exchangeable for 2,160,766 units of the Trust; (iii) options exercisable to acquire 107,340 units of the Trust; and (iv) deferred units that are redeemable for 4,682,851 units of the Trust. Additionally, the Trust has 296,962 Restricted Units and 296,962 Performance Units outstanding under the Trust's Performance and Restricted Unit Plan.

## SUBSEQUENT EVENTS

Subsequent to the end of the year, the Trust has sold five properties (224 suites) in Côte Saint-Luc, Quebec which closed in February of 2024 that were included in assets held for sale for a sale price of \$46.0 million.

## **COMPARATIVE INFORMATION**

Certain comparative figures have been reclassified to conform to the current year's presentation. Adjustments have been made to the Consolidated Balance Sheet, Consolidated Statement of Profit and Loss, Consolidated Statements of Cash Flows, and the relevant accompanying notes for the fiscal year ended December 31, 2022 to reclassify certain transaction and other costs from the carrying value of joint ventures to investment properties and to reclassify certain payroll-related costs from general and administrative expenses to property operating costs. \$880 was moved from investment in joint ventures to investment properties to improve the clarity of the disclosure around the Trust's share of the net assets of the joint ventures. \$800 was moved from general and administrative expenses to property operating costs to better align certain costs with the nature of the expense.
